STEP 1

Place the Table Top section (A) upside-down on a soft surface. Attach the Legs (B), using Flat Washer, Spring Washer, hand start bolts 2-3 threads and leave legs loose. (See Figure 1).

Warning: It is extremely important, at this stage, to keep the bolts only loosely tightened in order to allow the legs to have some lateral movement for the next step on inserting and fixing the stretchers. Over tightening, of the bolts, allowing little, or no movement, could cause damage to the legs by needing the use of force to insert the stretchers.

STEP 2

Attach Stretcher (C) to the Legs (B), and fix securely with screws provided. (See Figure 2).

STEP 3

Finally, after all stretchers are fixed in place, securely tighten all Bolts with Hex Key. (See Figure 3).

STEP 4

Taking care not to put any undue pressure on the feet. Carefully place the table in an upright position. Adjust the levelers on the feet until the furniture is level. (See Figure 4.)
