

INSTRUCTION MANUAL

Thank you for purchasing this fine decorative fountain. This product combines our latest design with a creative theme, and is carefully packaged, inspected, and tested to ensure safe operation. The following instructions and safety guidelines will enable you to use the product with trouble-free operation. Please read the instructions and safety guidelines entirely before using the product.

PRODUCT FEATURE: The product consists of: (1) Fountain Top; (2) Fountain Base; (3) Pump (Please read pump use manual); (5) solar Light

INSTRUCTIONS FOR USE:

- 1.Unpack the product. Read this instruction sheet before proceeding.
- 2.Familiarize yourself with the pump. The pump speed is controlled by the switch located at the front of the pump. The speed is indicated by plus (+) and minus (-) sign. To increase the speed, move to each speed level. At its highest speed level, the switch will cease to move any further, vice versa.
- 3.Place the product on a flat surface, remove plastic bag from packaging. Insert the tube of fountain top into the pedestal.
- 4.Insert the pump into the water tube from the fountain body.
- 5.Fill base pond with tap water to 1cm from the edge of the base. Make sure there is no solid impurity in the water, or it will affect the pumps work.
- 6.The solar light will according to the image position hangs on the iron. Solar light does not come fully charged. Please put in full sunlight for at least one full day in order for light to operate properly. Placement in a shady spot or on a cloudy day will decrease the effectiveness of the solar light. Also, please note that there is an on-off switch on solar light so you can adjust accordingly.

The solar light has below data:

- (1) Solar panel: polycrystalline 68*68 2V/60mA 1PCS
- (2) LED:1pc: 5mm warm white light
- (3) Battery: AA Ni-MH 300mAh 1.2V
- (4) Material: Iron+plastic+glass
- (5) Working time:6-8hours after full charge
- (6) watt/lumen: 0.024W/2.5LM

Note: On first use, there may be air in the pump. It may take several minutes until all of the air escapes and water begins to flow.

SAFETY GUIDELINES:

1. Read all instructions and safety guidelines thoroughly. Failure to follow guidelines and instructions could result in serious injury and / or property damage.
2. Do not pump flammable liquids such as gasoline / fuel oil with the fountain pump.
3. Make sure the water tube is properly connected with the pump. Do not crimp the tube as this could cause a blockage and water will not flow.
4. During operation, the pump will be submerged in water. Take care when handling the pump; do not pull it out of the water by the power cord, and do not move it when running and still submerged in water.
5. Unplug the pump from electric power before servicing, cleaning, or moving.

CLEANING AND MAINTENANCE:

1. If, after time, the pump starts to lose power or stops working, check for the buildup of sediment or scale in the Fountain Basin.
2. Remove the impediment or any dirt and scale.
3. Periodically change water and keep water clean. Distilled water is recommended to prevent mineral buildup. This will improve the waterfall effect.

These instructions relate ONLY to this water fountain product and contain important information for using the product the first time. Please keep for later reference. These instructions should always accompany the product in the event of transfer to a new user.
