

# **PLASTIC GARDEN STORAGE BOX**

# ASSEMBLY GUIDE

- Check your local building codes regarding footings, location, etc..
- Select a site that allows enough working space around the storage box.
- Follow all directions and dimensions thoroughly.
- Follow the steps given in the manual carefully for correct assembly.
- BE SAFE: Follow safety instructions and avoid injury.
- GROUND MUST BE EVEN : Make sure the foundation frame lies flat on the ground. If the earth bed is uneven, remove sod and other debris and level it with a flat shovel.
- Separate contents of the carton by the part number and review the list. Be sure you have all the necessary parts for your storage box. Refer page 3 manual for part list.
- Always wear work gloves, long sleeves and eye protection during assembly of the storage box. Some pieces of the storage box contain sharp edges and can cause injury.
- Be cautious with the tools used for the assembly of the storage box. Familiarize yourself with the operation of all the power tools.
- Children and pets should be kept away from the assembly site to avoid any distractions and accidents.
- Do not attempt to assemble the storage box on a windy day. Storage box panels can be whipped across by the wind making the worksite difficult and dangerous.
- Do not use any part of the storage box as a means of personal support while attaching components during assembly.
- The storage box must be constructed on a solid base foundation. A concrete pad or a large size concrete patio stone squares is recommended for suitable floor base. Make sure it is firm and level and will allow drainage away from the site.
