Animated Lighted Angel

Illustrated assembly guide

MODEL XD3540

Finished dimensions
5 in L x 25 in W x 35.8 in H

Keep the power disconnected while joining the frame and light connections. Use the supplied power source for your item.

Before you begin

Arrange the components on a clean surface. Lower gown, middle body, upper body and head assembly, wings, arms, halo, belt and harp details, fasteners, LED cords and stakes.

Have a screwdriver and scissors ready. Use the included wing nuts and bolts; do not cut the light wires.

Assembly sequence

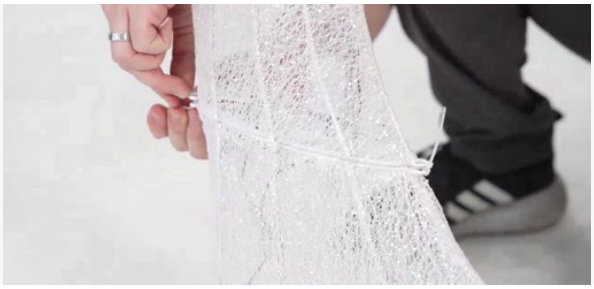

Follow the numbered steps. Check each frame and cord connection before applying power.

1 Join the lower body

Feed the middle-section cords down through the lower gown. Align the frame connectors and fit the middle section onto the bottom section.

2 Secure the body frames

Zip-tie the middle and lower sections together. Trim excess tie ends without cutting the light wires.

3 Connect the lower cords

Join the three electrical connections shown in the video, keeping the cords clear of frame joints.

4 Fit the upper assembly

Feed the cords down into the middle section. Fit the upper body assembly into place and secure the frame pieces with zip ties.

Assembly sequence

Follow the numbered steps. Check each frame and cord connection before applying power.

5 Fasten the wings

Attach the wings to the body using the supplied nuts and bolts. Tighten with a screwdriver; the screwdriver is not included.

6 Fit the arms and lights

Place the arms onto the angel and secure the matching electrical cord connections from the arms.

7 Add the finishing details

Attach the belt and harp components in the positions shown. Check that the decorative pieces and frame joints are secure.

8 Position and test

Use the included ground stakes if placing outdoors. Connect the supplied adaptor and verify that the lights turn on and the wings move back and forth.
