

Assembly Instructions for **Model 21408663**

Step 1: Fix the hanging board on the wall. Connect the power cord. Install the chassis part. When wiring, you do not need to distinguish between positive and negative poles or neutral wires.

Step 2: Use the lamp holder ring to fix the lampshade and install the bulb.

Step 3: After installation, turn on the power to test the light.

Your fixture is now assembled and ready to use.
