Moments Collected 1

D2201S44026-3552

Moments Collected features an image of a secluded Mediterranean rooftop terrace high above the sea. The photograph's minimalist composition offers a study in form, perspective, and emphasis. A large, ceramic decorative pot, a shuttered window, and a chimney provide emphasis that adds a subtle touch of visual interest to the scene. The perspective offers a multi-tiered view that lifts the sight toward the sky. Smooth clean lines and curvilinear structures give the composition a strong sense of form.

Offering an intimate glimpse of coastal life, Moments Collected displays personal artifacts against a backdrop of blue and white. An original addition to the exclusive ART by TA Collection.
