

Installation diagram

Installation steps

First open the outer box, find out all kinds of accessories, and carefully placed on a clean platform, to prevent scratches, collision light body.

1: As shown in the figure, install the connecting rod.

2: As shown in the illustration, connect the light fixture to the disc using a suspension chain.

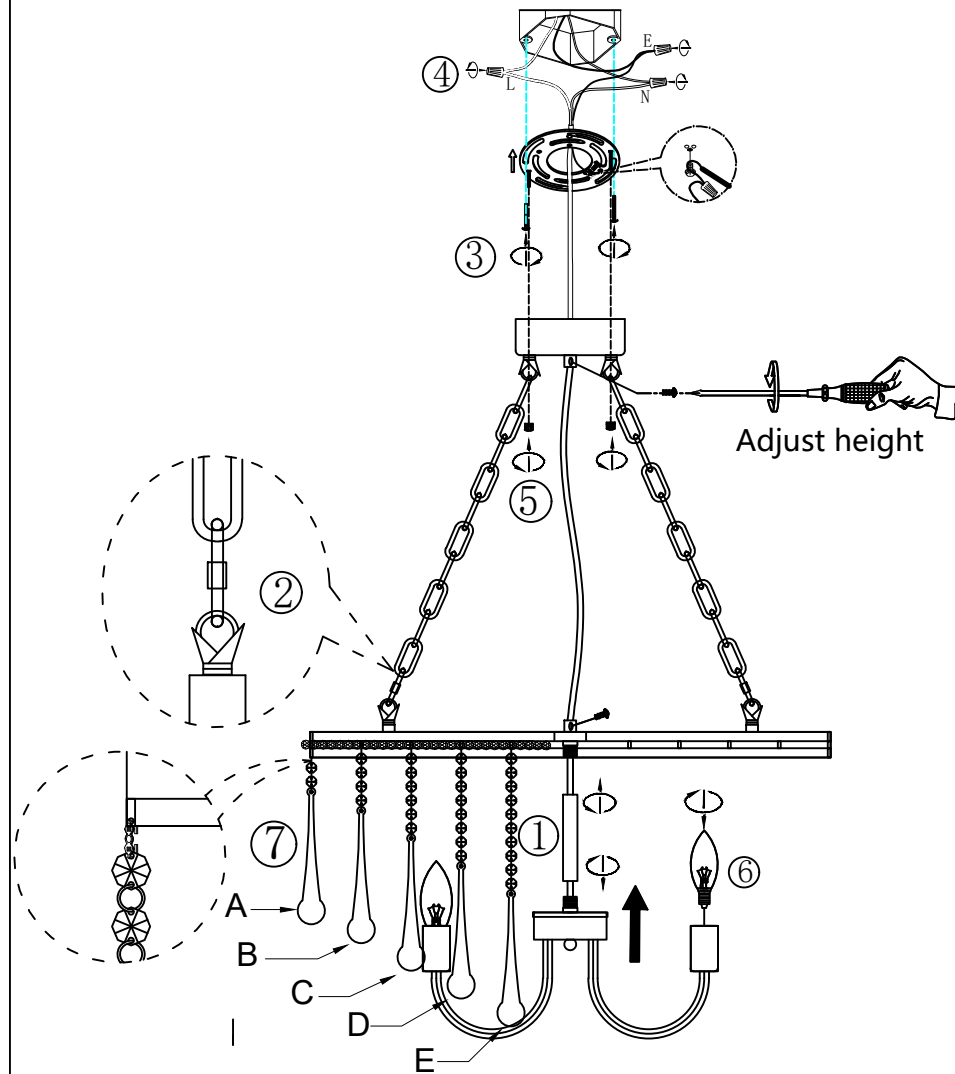

3: Use the screws on the accessory package to fix the hanging board onto the junction box

4: Connect the main line on the ceiling panel to the reserved line on the ceiling with a wiring cap

5: Slide the entire lamp onto the hanging board (allowing the screws of the hanging board to protrude above the ceiling plate), and then twist the splined nuts onto the exposed screws of the hanging board

6: Install E12 bulb (not included). Check relamping label at socket area or packaging for maximum allowed wattage.

7: Hang decorative crystals as shown

A	B	C	D	E
40 strings of crystals	32 strings of crystals	24 strings of crystals	16 strings of crystals	8 strings of crystals

Notes:

It is strictly prohibited to wipe the surface of lamp body with tianna and other chemical solvents. Cotton cloth is recommended Glue a small amount of water to gently wipe the lamp.

Warm tips: this lamp is only for indoor installation and is strictly prohibited for outdoor use
