

# Installation Manual

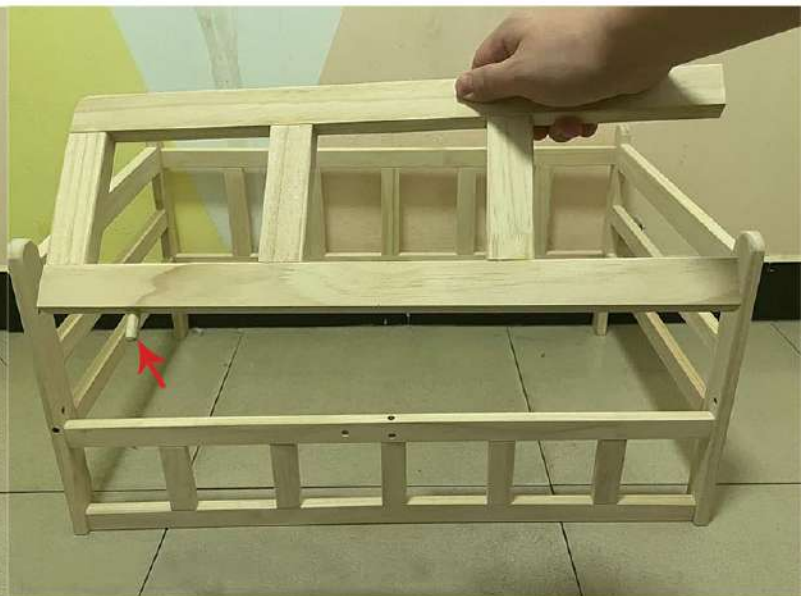

**Place the bed frame as shown in the picture, and place the one with holes on the left side (position indicated by the arrow)**

**Attention should be paid to the installation of the front guardrail. The arrow hole position should be on the left side**

**Attention should be paid to the installation of the rear guardrail, with the holes positioned in the direction of the wooden bars under the nails facing inside the bed**

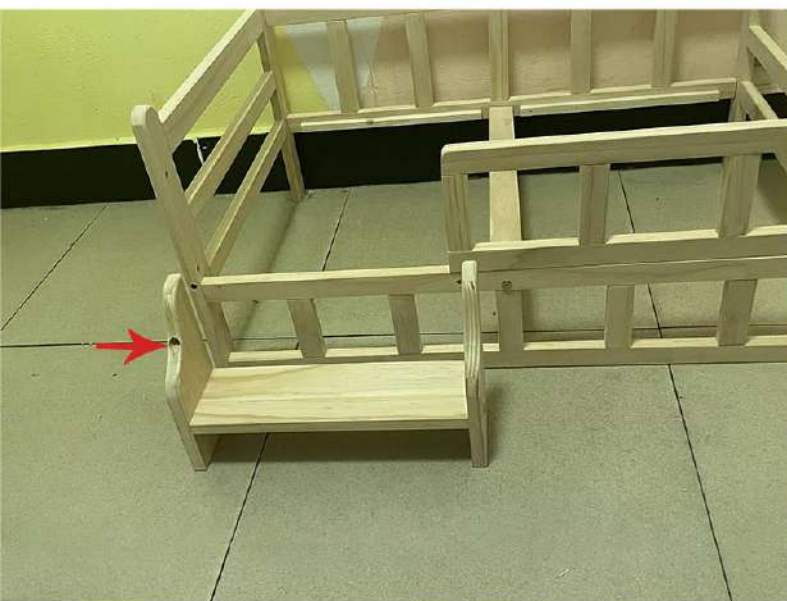

**Insert the wooden pin into the short guardrail (position indicated by the arrow)**

**Install the front guardrail on the right side as shown in the picture**

**Install the crossbeam as shown in the diagram, and fix it with screws at both ends (S code without crossbeam)**

**Install the three wooden boards on the stairs, with the one with holes on the front installed on the left side (as indicated by the arrow)**

**Install screws on the left front (the only position where long screws are used here)**

**Install the screw on the right side of the staircase from the inside out**

**Finally, place the bed board and complete the installation.**
