

HARDWARE LIST	CODE	HARDWARE	QTY
	1	JCBC M6 x 60mm 	24
	2	Barrel Nut M6 x 16mm 	24
	3	Revert + Snap Pin 	2
	4	Nylon Washer 	2
	5	Allen Key 	1
	6	Magic Screw 	1

STEP 1

The diagram illustrates the first step of assembly. A radiator unit, labeled 'A', is shown with a front panel, labeled 'B', being attached to its left side. The front panel 'B' has four screws at the bottom and two at the top. A callout shows a screw being inserted into a hole in the front panel, with a circular arrow indicating the direction of rotation. The radiator unit 'A' has a series of vertical fins and a top and bottom frame. The front panel 'B' is being aligned with the left side of the radiator unit 'A'.

STEP 2

Diagram illustrating Step 2: Attaching the front panel. The assembly consists of a long rectangular frame with vertical slats. A circular inset shows a screw (1) being inserted into a hole in a panel (2). The frame has four corners labeled 'D' where screws are being attached. A curved arrow points to a 'FRONT' label with a downward arrow, indicating the panel is placed on top.

STEP 3

This diagram illustrates the third step of the assembly process. It shows the bed frame with the mattress removed. The backrest, labeled 'A', is being attached to the frame. A screwdriver is shown inserting a screw into the backrest. A callout shows a close-up of the backrest's attachment mechanism, labeled '3' and '4', which involves a bracket and a screw.

STEP 4

The diagram illustrates the final step of assembling the bed frame. It shows the main bed frame with slats (C) and side rails (A). Two circular callouts show the assembly of a headboard/footboard (E) using a spring bolt (1) and a washer (2). Arrows indicate the placement of the headboard and footboard onto the side rails.
