

Installation steps:

1. Pass the power cable through the iron pipe and the center hole of the lampshade, and fasten the lamp body and lampshade with the locking iron.
2. Lock the cable screws.
3. Secure the installation support to the cable outlet box using screws.
4. Pull the power supply wires out from the junction box. Connect the wires using wire nuts as follows:
 - Connect the white wire from the fixture to the white (neutral) wire from the power supply.
 - Connect the black wire from the fixture to the black (live) wire from the power supply.
 - Connect the ground wire from the fixture to the ground wire from the junction box.
- *Carefully tuck the connected wires back into the junction box.
5. Fix the canopy to the mounting bracket using decorative screws.
6. Install the chain.
7. Tighten the wires with screws.
8. Install light bulbs (bulbs not included).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
