

# ASSEMBLY INSTRUCTION

SKU NO. : N760P452676

CABINET

## WARNING !

This product is NOT a Clothing Storage Unit (CSU)  
DO NOT use it for clothing storage.  
Improper use may cause furniture tipover.

## AVERTISSEMENT !

Ce produit N'EST PAS une unité de rangement pour vêtements (CSU).  
NE l'utilisez PAS pour le rangement de vêtements.  
Une utilisation impropre peut entraîner un basculement des meubles.

ASSEMBLY TOOLS REQUIRED (NOT INCLUDED)

## STEP 1: Following below illustration

- Using Leg F connect with Bottom Panel E.
- Using Middle leg G connect with Bottom Panel E.

## STEP 2: Following below illustration

- Using hardware #11 connect A,E.

11  4

### STEP 3: Following below illustration

-Using hardware #17, #13, #14 connect H with Step 2.

|    |                                                                                     |   |
|----|-------------------------------------------------------------------------------------|---|
| 17 |  | 1 |
| 13 |  | 2 |
| 14 |  | 2 |

### STEP 4: Following below illustration

-Using hardware #17, #13, #14 connect I with Step 3.

|    |                                                                                       |   |
|----|---------------------------------------------------------------------------------------|---|
| 17 |  | 1 |
| 13 |  | 2 |
| 14 |  | 2 |

## STEP 5:

Following below illustration  
-Using hardware #12 connect C with Step 4.

12

2

## STEP 6:

Following below illustration

- Using hardware #11 connect K.
- Using hardware #4 connect #3 with B.

11

2

3

4

4

8

## STEP 7: Following below illustration

-Using hardware #17, #13, #14 connect B with Step 5.

|    |                                                                                     |   |
|----|-------------------------------------------------------------------------------------|---|
| 17 |  | 1 |
| 13 |  | 2 |
| 14 |  | 2 |

## STEP 8: Following below illustration

-Using hardware #12 connect K with Step 7.

|    |                                                                                       |   |
|----|---------------------------------------------------------------------------------------|---|
| 12 |  | 2 |
|----|---------------------------------------------------------------------------------------|---|

## STEP 9: Following below illustration

-Using hardware #17 #13 #14 connect K with Step 8

|    |                                                                                     |   |
|----|-------------------------------------------------------------------------------------|---|
| 17 |  | 1 |
| 13 |  | 2 |
| 14 |  | 2 |

## STEP 10: Following below illustration

-Using hardware #12,#13,#14,#16 #17 connect A with Step 9.

|    |                                                                                       |   |    |                                                                                       |   |
|----|---------------------------------------------------------------------------------------|---|----|---------------------------------------------------------------------------------------|---|
| 12 |  | 2 | 16 |  | 4 |
| 17 |  | 1 | 13 |  | 5 |
|    |                                                                                       |   | 14 |  | 5 |

**STEP 11:** Following below illustration  
 -Using hardware #8 connect J with Step 10.

8

6

**STEP 12:** Following below illustration

- Using Rear plastic molding U connect J.
- Using hardware #8 connect J with Step 11.

8

18

## STEP 13: Following below illustration

- Using hardware #2 connect #1 with Step Q.
- Using hardware #6 connect #5 with Step Q.

|   |                                                                                     |    |   |                                                                                     |   |
|---|-------------------------------------------------------------------------------------|----|---|-------------------------------------------------------------------------------------|---|
| 1 |  | 8  | 5 |  | 4 |
| 2 |  | 16 | 6 |  | 8 |

## STEP 14: Following below illustration

- Using hardware #2 connect Step 13 with Step 12.

|   |                                                                                       |    |
|---|---------------------------------------------------------------------------------------|----|
| 2 |  | 24 |
|---|---------------------------------------------------------------------------------------|----|

**STEP 15:** Following below illustration  
 -Using hardware #9 #10 connect Step 14.

|    |                                                                                     |   |
|----|-------------------------------------------------------------------------------------|---|
| 9  |  | 4 |
| 10 |  | 4 |

**STEP 16:** Following below illustration  
 -Using hardware #15 connect Step 15.

|    |                                                                                       |   |
|----|---------------------------------------------------------------------------------------|---|
| 15 |  | 8 |
|----|---------------------------------------------------------------------------------------|---|

## STEP 17:

Following below illustration

-Using hardware #11, #16 connect L.

|    |                                                                                     |   |
|----|-------------------------------------------------------------------------------------|---|
| 11 |  | 6 |
| 16 |  | 8 |

x2

## STEP 18:

Following below illustration

-Using hardware #12 connect OL,OR with Step 17.

|    |                                                                                       |   |
|----|---------------------------------------------------------------------------------------|---|
| 12 |  | 4 |
|----|---------------------------------------------------------------------------------------|---|

x2

**STEP 19:** Following below illustration  
- Connect M with Step 18.

x2

**STEP 20:** Following below illustration  
-Using hardware #12 connect P with Step 19.

12

2

x2

**STEP 21:** Following below illustration  
 -Using hardware #7 connect N with Step 20.

7

10

x2

**STEP 22:** Following below illustration  
 -Using hardware #9 #10 connect Step 21.

9

x2

**STEP 23:** Following below illustration

**STEP 24:** Following below illustration

## WARNING

Serious or fatal crushing injuries can occur from furniture tip-over.  
If the furniture tip over restraint kit is not in the box, please contact our customer service department in order to obtain another kit before using the furniture.

|    |                                                                                                |   |    |                                                                                   |   |
|----|------------------------------------------------------------------------------------------------|---|----|-----------------------------------------------------------------------------------|---|
