LED Lights Controller-use instructions

Remote Battery: CR205 3V

How to use the controller?

1. After inserting the DC power adapter, you can use the remote control to control the lights. Press The "on /off" key to turn on the light and it will enter the static light mode.
2. There are 7 RGB Dynamic Modes. You can press the "MODE+/- " key to choose dynamic colors that you preferred and press the " Speed+/-" key to adjust color change speed.
3. There are 7 static colors: White / Red / Green/ Blue / yellow / ice blue/ pink light. You can press the "Brightness +/-" key to adjust the brightness.
4. You can press the "lock" key to fix the color you like. When you press the "Switch Dynamic /Static Mode" ket, the light will change between dynamic mode and static mode.
