2.Color may vary slightly. Due to lighting and display differences, the actual material color may differ slightly from the photos.

3.Vacuum-packed cushions. To reduce shipping volume, cushions are vacuum-packed. After unsealing, gently pat and fluff each cushion and allow 24–72 hours to fully recover to the look shown in the images.

- ①.Pat to make it rebound better and fluffy.
- ②.Knead your cushion like giving your cushion a massage while allowing the air to flow through the foam.

4.The connector tabs come pre-installed on the sofa. For different layout options, you may need to replace them during assembly. All parts are included (plus an extra pair). See the diagrams below for replacement steps
