INSTRUCTION MANUAL

INSTRUCTION

Dear Customer:

Best regards,
The Support Team

Warning: California Residents Proposition 65
This product contains lead, a chemical known to the state of California to cause cancer and birth defects or other reproductive harm. Do not place the product in your mouth. Wash your hands after handling this product.

Caution: It is highly recommended to get an electrician to install this light. Please make sure to turn the electricity off at the main circuit breaker before beginning installation. All glass is fragile. Use care when handling glass component(s) and/or lamp(s).

The diagram illustrates the experimental setup. A large, rounded, bulbous container (labeled A) is connected via a tube to a smaller, cylindrical container (labeled B). A horizontal arrow points from the label 'A' to the large bulbous container. Another horizontal arrow points from the label 'B' to the smaller cylindrical container. A tube extends from the bottom of the large container, passing through a valve or connector, and ends in a small, curved, hook-like structure.

- 1.Unpack all parts from carton carefully.
- 2.During assembly, the power cord should be prevented from twisting.
- 3.Tighten the lamp socket(B)into the body(A) until tight.
- 4.Place the shade(C)onto the lamp socket(B).
