INSTALLATION STEPS

This product has been inspected and debugged by the factory to the best condition. Please do not disassemble and assemble it yourself.

Before installing the product, please be sure to remove sundries and sludge from the water pipe to prevent sundries from blocking the product.

1. Remove the lock nut, rubber washer and stainless steel washer.

2. Screw the inlet hose to the main body. The hose should not be screwed with a spanner to avoid damaging the hose or the threads.

3. Install the mixer on the centre hole.

4. Install the rubber washer, stainless steel washer and lock nut in turn. Tighten them by hand and then use a screwdriver to further tighten the locking screws.

5. Connect the hose to the angle valve.

6. Remove the bubbler and turn on the tap for one minute to flush out any residue from the tap and inlet pipe. Turn off the tap and fit the bubbler.

CLEANING CARE

In order to keep the appearance of product clean, bright and good performance, please take care of the product as follows;

1. Rinse with water only and dry with soft cotton cloth;
2. Use mild liquid and colorless glass cleaner to remove surface dirt and scale film, or use polish without abrasive effect;
3. Do not use abrasive detergent, polish, emery cloth, paper towel or scraper, etc;
4. Do not use acid cleaner, or cleaner and soap with insoluble gran etc;
5. In the process of use, mud may accumulate in the bubbler and make the water flow slow. The bubbler can be unscrewed, rinsed with water, and then installed back in place.

Please feel free to contact us if you have any questions. We will help to solve the issue together with you.
