

Origami Paper Lampshade Assembly Guide

Read these instructions carefully and familiarise yourself with the procedure before assembling

1

When unpacked, the hinge on the metal ring may be pointing outwards instead of the clasp.

2

Carefully rotate the ring through the paper holes until the clasp is facing outwards and then apply some pressure to create an opening in the metal ring

3

Place the open ring around the light fitting and close the clasp ensuring the clasp ends overlap and the ring sits evenly

4

Gently close the folded lampshade along pre-creased lines — don't force the folds.

5

Position end (A) over end (B) and allow the magnets to snap into place. The connection will fasten itself and seamlessly hide the join.

6

Pinch the ends together to ensure the magnets have clicked together and the seam is perfect.

Care Instructions

- Dust gently with a soft dry cloth or feather duster.
- Avoid moisture.
- Keep out of direct sunlight to prevent fading.
- Store flat when not in use
