

Power Energy Consumption Guide

Description: 11 Fin Electric Oil Filled Radiator

Code: HE-0202-2

SKU: BOBE1001

Energy Consumption Details:

Operation at MAX Setting – Power Level 3 – Thermostat on Full

- **Power**
 - First 20 Mins of Operation At 2500 watts
 - Remainder 40 Mins of Operation and thereafter Operation of 1500 watts

 - **Running Costs**
 - Hour 1 – Averages Running Costs of Approximately 1.83Kw Per Hour
 - Average Running Costs thereafter Approximately 1.5Kw Per Hour
-

Calculating Energy Costs:

The equation to use to convert that energy usage into cost is the power (kilowatt) x cost of one kWh (pence) x length of time.
