		*Glides	---4 pcs
		*Socket Screws, Threaded Posts	---2 each

Attention: Before you start assembling your study carrel; please prepare a soft surface work area on the floor. The only tool you will need is a screwdriver. Carefully remove all hardware from packaging and place the hardware parts on the soft work area where they will not come in contact with the laminated wood components. To avoid damage to the laminated wood surfaces, keep hardware parts separated until they are needed for assembly.
