USER MANUAL

PRODUCT STRUCTURE

SPECIFICATION

Power Source	100% Solar Powered
Solar Panel	2V / 0.4W Monocrystalline Silicon
Battery	NI-MH, AA, 800mAh / 1.2V
Charging Time	4-6 Hours
Working Time	10-12 Hours
Waterproof Grade	IP65

OPERATION INSTRUCTIONS

1. Peel off the protective film and toggle the ON/OFF switch to turn on the light. The switch is at the bottom of the solar lantern.
2. Install the light in an area where it can get direct sunlight.
3. The solar lantern will automatically turn on at night.

NOTES

1. Make sure the switch is ON before using, or the solar light will not light or charge.
2. Charge the solar panel under direct sunlight at least 4-6 hours for the first time use.
3. In cloudy weather or winter, charging time may be longer and working time may be shorter. This is a common feature of solar-powered lights and should not be considered as a quality problem.

WARNING

1. Do not discard this product or its battery into a fire; it may cause an explosion.
2. Do not disassemble the product.
3. Do not soak the product in water.
4. Do not cover solar panel, or it will reduce the charging efficiency.
