

## Installation steps:

1. Connect and fix the upper metal frame and the lower metal frame with screws and tube.
2. Insert the movable buckle into the ring and tighten it.
- 3-4. Pass the ring through the hole on the canopy, and tighten it with the nut spacer sheet.
5. Drill two holes on the ceiling and insert expansion plugs into the holes (Due to the heavy weight of the product, additional reinforcement is required)
6. Secure the mounting plate to the junction box with screws.
7. Secure the mounting bracket with screws.
8. Connect the main and ground wires of the light fixture to the wires reserved on the junction box.
- 9-10. Cover the ceiling plate onto the junction box, then tighten it with nut.
11. Tilt the horizontal lamp head downwards and tighten the screws to secure it
12. Install the bulbs (not included)
13. Hang the crystal string on the lamp shade.

## Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
