

DINING TABLE INSTALLATION INSTRUCTIONS

Before starting the installation,
please read the installation carefully
and follow the steps provided.

IMPORTANT SAFETY & PREPARATION NOTES

This product is shipped in 3 separate packages. Please count the packages upon receipt.

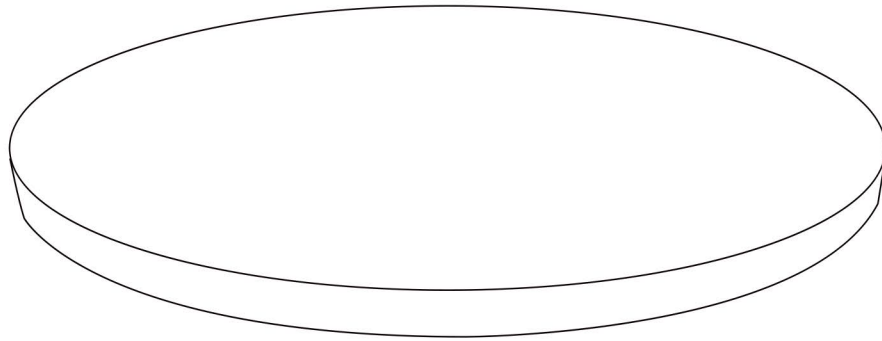

Check the outer boxes for damage. If no visible damage, open and verify all parts are included and undamaged (refer to the parts list).

Two people are strongly recommended for assembly.

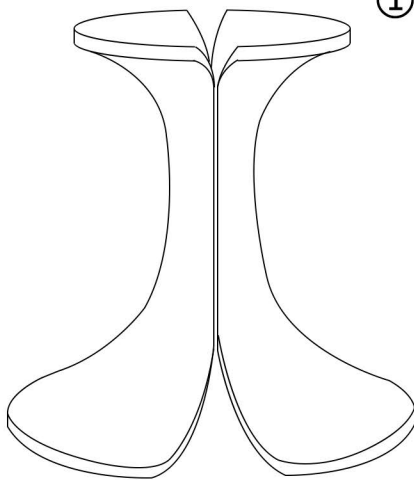

When installing multiple screws: first insert all screws loosely, then tighten them gradually and evenly. Never fully tighten one screw at a time.

Do not over-tighten screws to avoid damaging threads or wood.

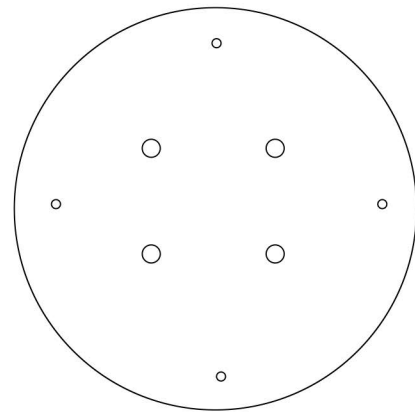

Installation Components

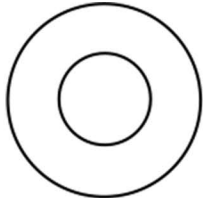

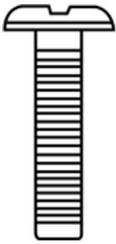

① Tabletop

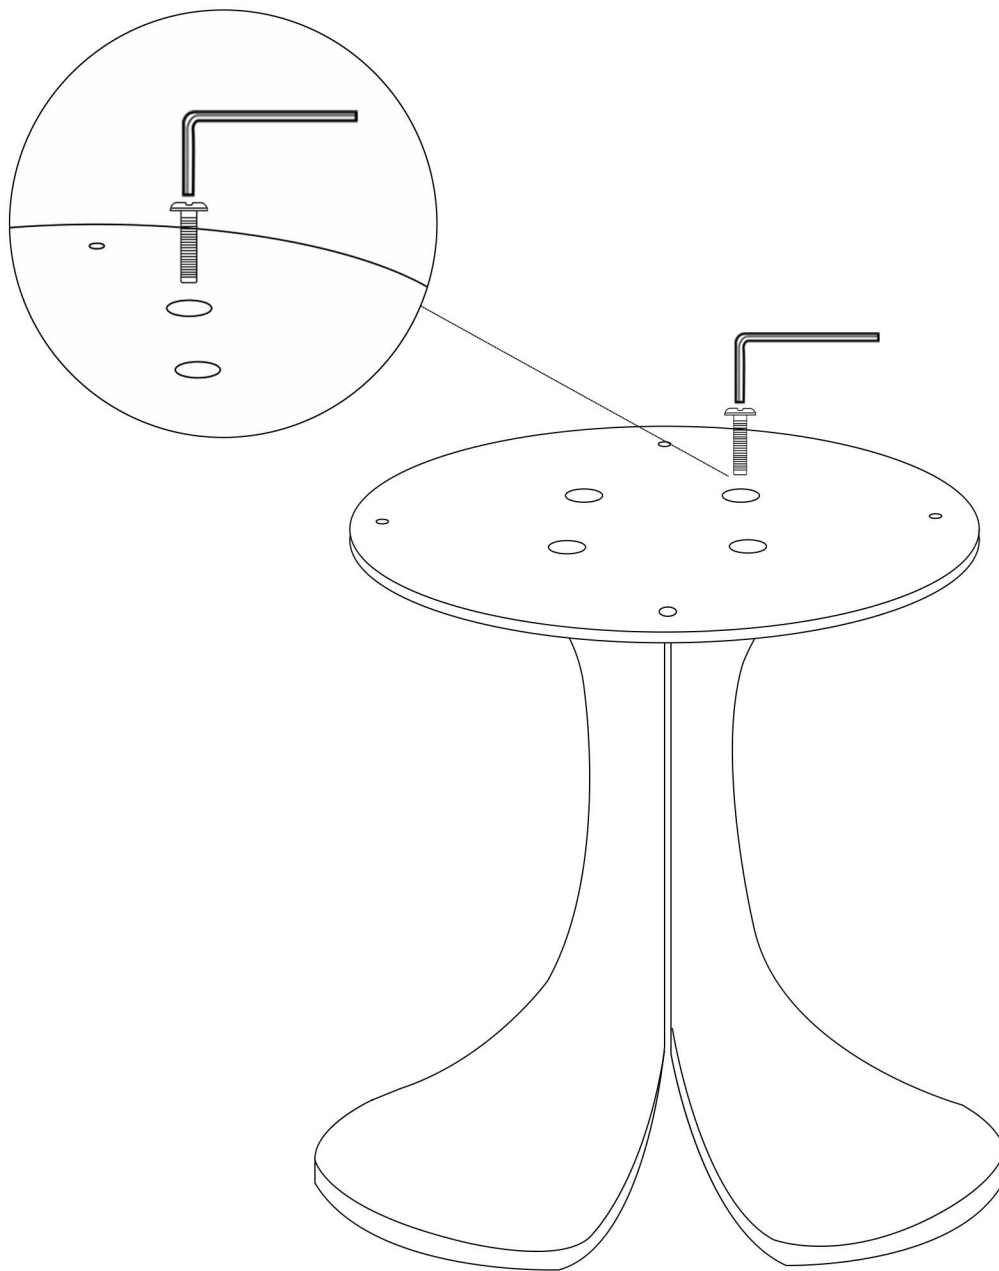

② Base

③ Connecting plate

<p>④ × 1</p>  <p>④ Screwdriver</p>	<p>⑤ × 10</p>  <p>⑤ Nut</p>	<p>⑥ × 9</p>  <p>⑥ Screws</p>
---	--	--

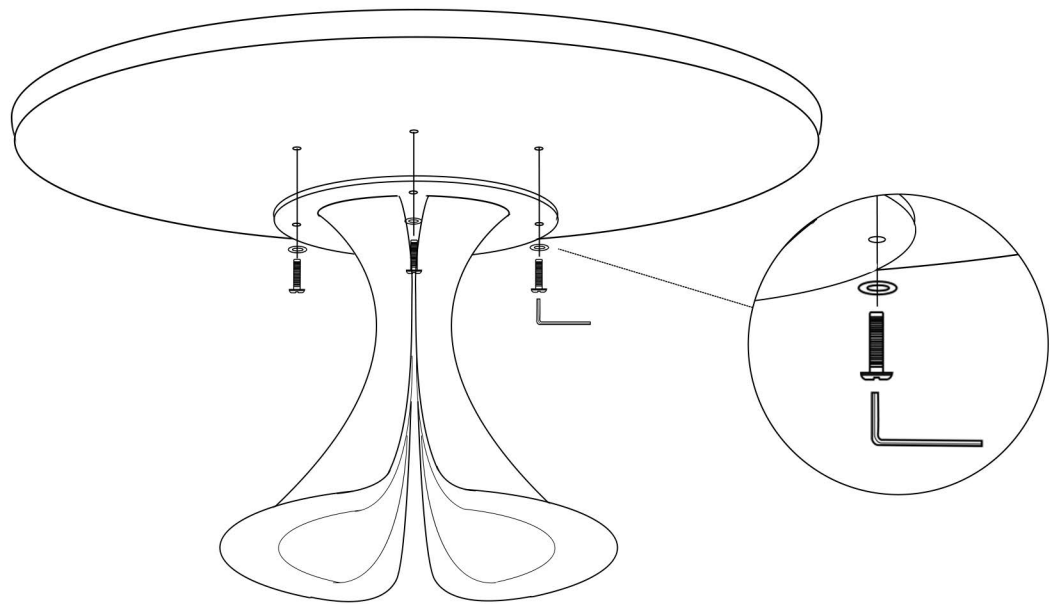

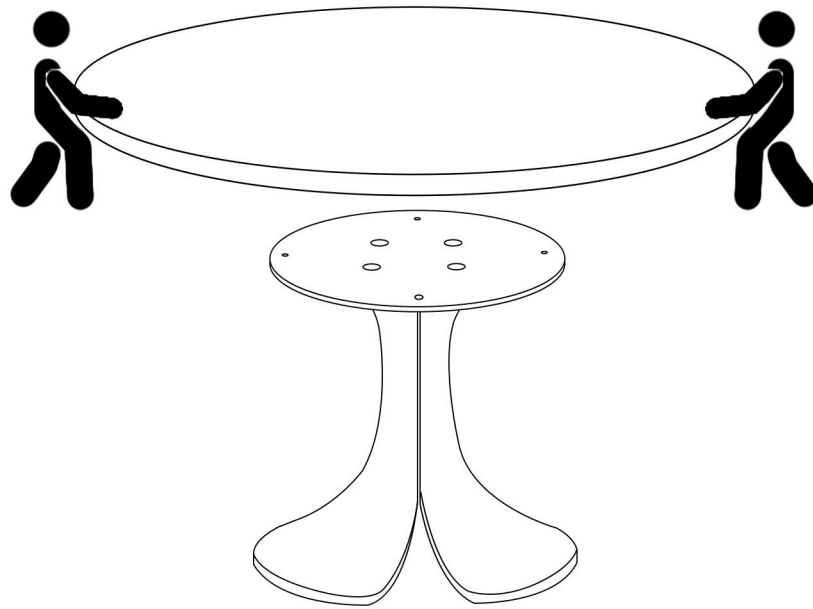

Step 1: Attach the Connecting plate to the Base

Take the connecting plate.

Align the pre-drilled holes on the brackets with the holes on the base frame.

Insert all screws loosely (do not tighten yet).

Once all screws are in place, tighten them evenly using the Allen key.

Step 2: Mount the Tabletop

With two people, carefully lift the tabletop.

Gently place the tabletop onto the assembled base.

Slightly rotate the tabletop if needed to align the pre-drilled holes on the underside with the holes on the base.

Insert all tabletop fixing screws loosely.

When all holes are perfectly aligned, tighten all screws gradually and evenly.

Assembly Complete

Double-check that every screw is properly tightened.
Gently shake the table to ensure stability—no wobbling
or unusual noise.

Assembly complete!
