

You can DIY different shapes

1

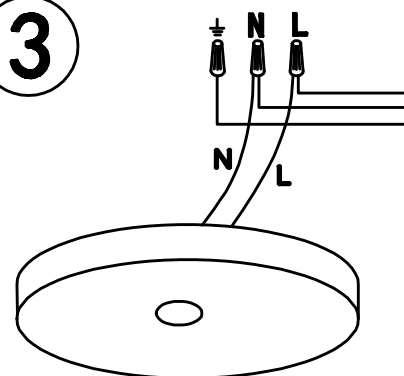

remove the hanging board
from the chassis

2

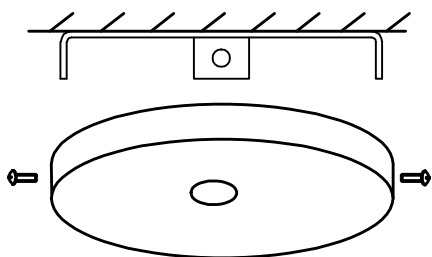

Drill holes in the ceiling at
suitable location and fix
with expansion screws

3

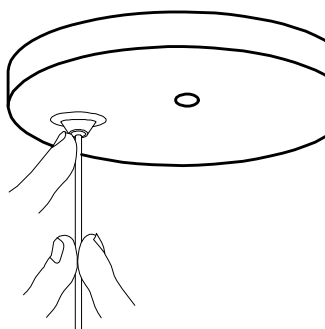

Please make
sure to cut off the power
when installing

4

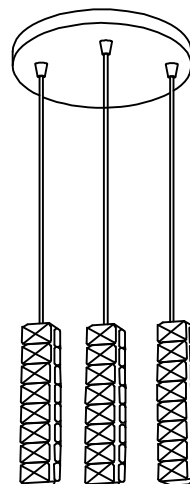

Tighten the screws on the
chassis and fix the lamp
on the ceiling

5

While holding the pin in place,
simply pull down/push up the
cable to adjust the height

6

Adjust the length of the rope
to get the shape you like
