

Installation Instructions

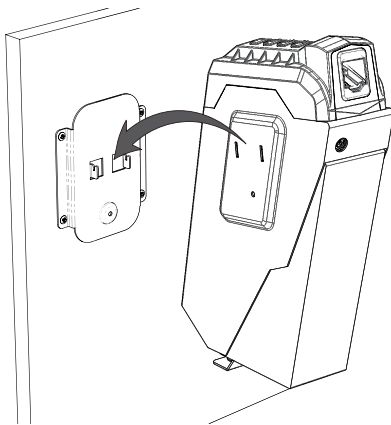

- 1.** Loosen the thumb screw located outside the vault to separate the mounting bracket.

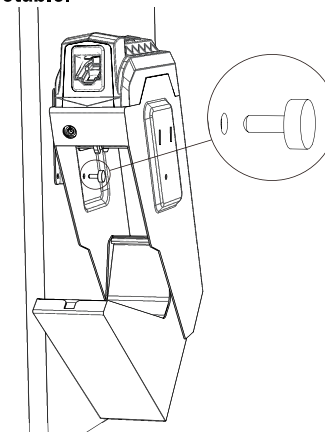

- 2.** Use the 4 screws included in the box to install the mounting bracket to your desk or any other vertical surfaces.
Note: Please make sure the installation location has sufficient space as instructed for proper functioning.

- 3.** Attach the vault to the mounting bracket by connecting the two hooks on the mounting bracket with the two slot holes on the vault.

- 4.** Put the thumb screw back in from inside the vault and connect it with the pre-drilled hole on the mounting bracket. Tighten the thumb screw until the entire unit is stable.
