

# STEP UP RETRACTABLE LAUNDRY DRYING RACK

## INSTALLATION MANUAL

### IMPORTANT:

### What is included:

- Fully assembled retractable drying rack
- Installation and user manual
- 4 sets of screws and plastic anchors (plus one set of spares)

### Installation:

- Find a flat surface to install the rack
- Open the left and right front lids
- Ensure that the top and the bottom of the rack are correctly positioned as shown
- If possible, align as many holes as possible on studs for maximum safety
  - Mark the installation holes
  - You do not need to use plastic anchors if you are installing on a stud
- Use the top left and top right holes to add the additional screws (shown in red)
  - Mark the installation holes
  - If they are not on a stud, use a drill to make openings for the anchors
  - Insert the plastic anchors into the holes (use a hammer if needed)
- Place the product on the wall to align with the holes
- Use the provided screws to secure the rack on the wall

Try to align left, center and right holes on studs

# USER MANUAL

## Opening:

- Open the left and right lids

- Pull the metal frames out from the center
- Extend all bars fully
- The rack is ready for use

- Hang your clothes to dry

## Closing:

- Remove all clothes & laundry clips from the rods
- Push left and right metal frames towards the center
- Close the lids

## Safety:

- Do not exceed the maximum load capacity of 60lbs
- Place it high and out of reach children
