

1. Assembling the Frame

- a. Unpack all components from the box.

Note: *Handle parts gently to prevent damage.*

- b. Lay out all parts on a clean, flat surface.
- c. Align the side panels of the drawer cart.
- d. Connect the top and bottom panels to the side panels using the provided screws.

Note: *Refer to the user manual for the exact location of the screw holes.*

- e. Tighten all screws securely but avoid overtightening.

2. Installing the Drawers

- a. Slide the drawers into the tracks on the frame.

Note: *Drawers will slide in smoothly when aligned properly.*

- b. Push the drawer all the way in until it clicks into place.

Note: *This indicates that the drawer has locked in securely.*

3. Attaching the Casters/Wheels

- a. Turn the drawer cart upside down.

- b. Insert the stem of each caster into the designated holes at the bottom of the drawer cart.

- c. Press down firmly until the caster snaps into place.

Note: *Refer to the user manual for information on the exact location of the caster holes.*

4. Adding Handles or Knobs

- a. Find the pre-drilled holes on the front of each drawer.

Note: *Some models might come with handles already attached.*

- b. Align the handle or knob with the holes.

- c. Secure the handle or knob using the provided screws.

Note: *Refer to the user manual for instructions on how to perform that action.*

5. Locking Mechanism Setup (For Lockable Models)

- a. Insert the key into the lock.

- b. Turn the key to ensure the locking mechanism operates smoothly.

Note: *Keep the key in a safe place when not in use.*

Note: *Refer to the user manual for information on the exact location of the lock.*

6. Applying Protective Pads (Optional)

- a. Peel the backing off the adhesive side of the protective pad.

- b. Stick the pad to the bottom corners of the drawer cart.

Note: *Protective pads can prevent scratches on delicate floor surfaces.*

7. Positioning Your Drawer Cart

- a. Move the drawer cart to its desired location.

- b. Lock the wheels to prevent the cart from moving unintentionally.

Note: *Typically, wheels have a small lever or button to lock them in place. Refer to the user manual for information on the exact location and operation of the wheel locks.*
