

Installation Instructions

Parts Description

A

Desktop

B

Table Legs

C

L-Shaped Table Legs

D

Connecting Bar×4

E

Nuts×4 / Washers×4 / Screws×4

F

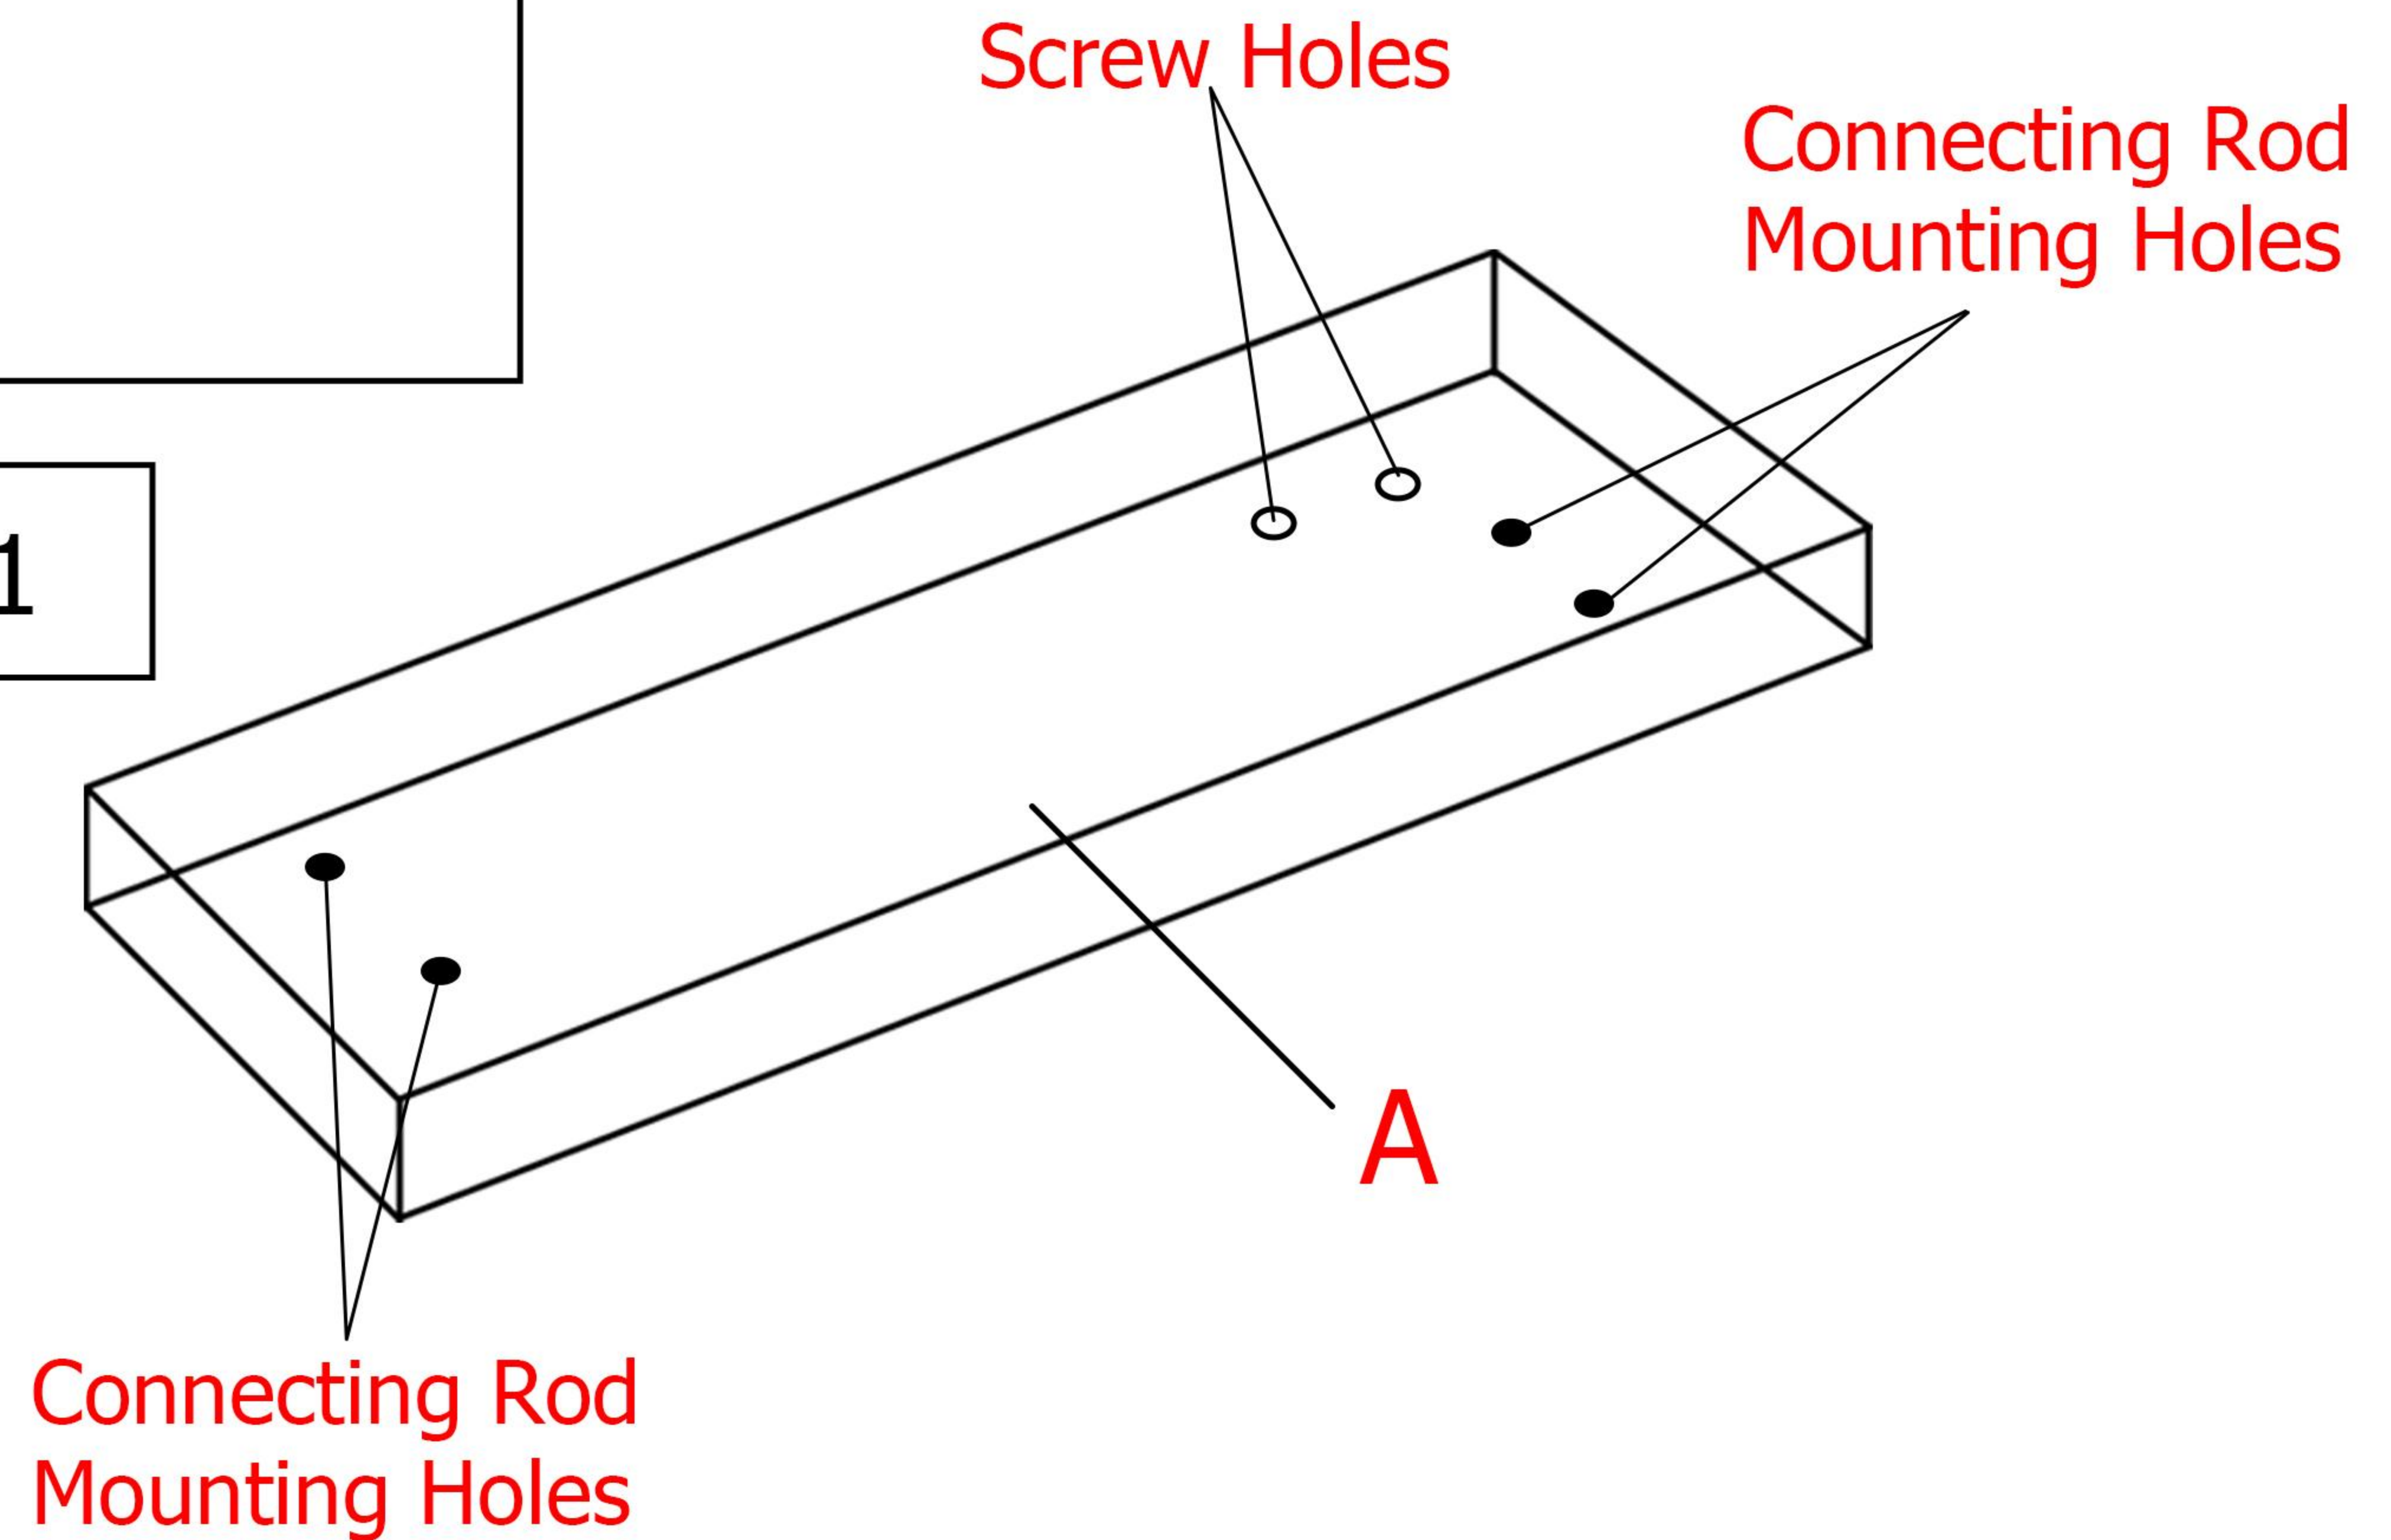

Allen Socket
(Required Tools Not Included)

Step 1:
flip the tabletop upside-down.

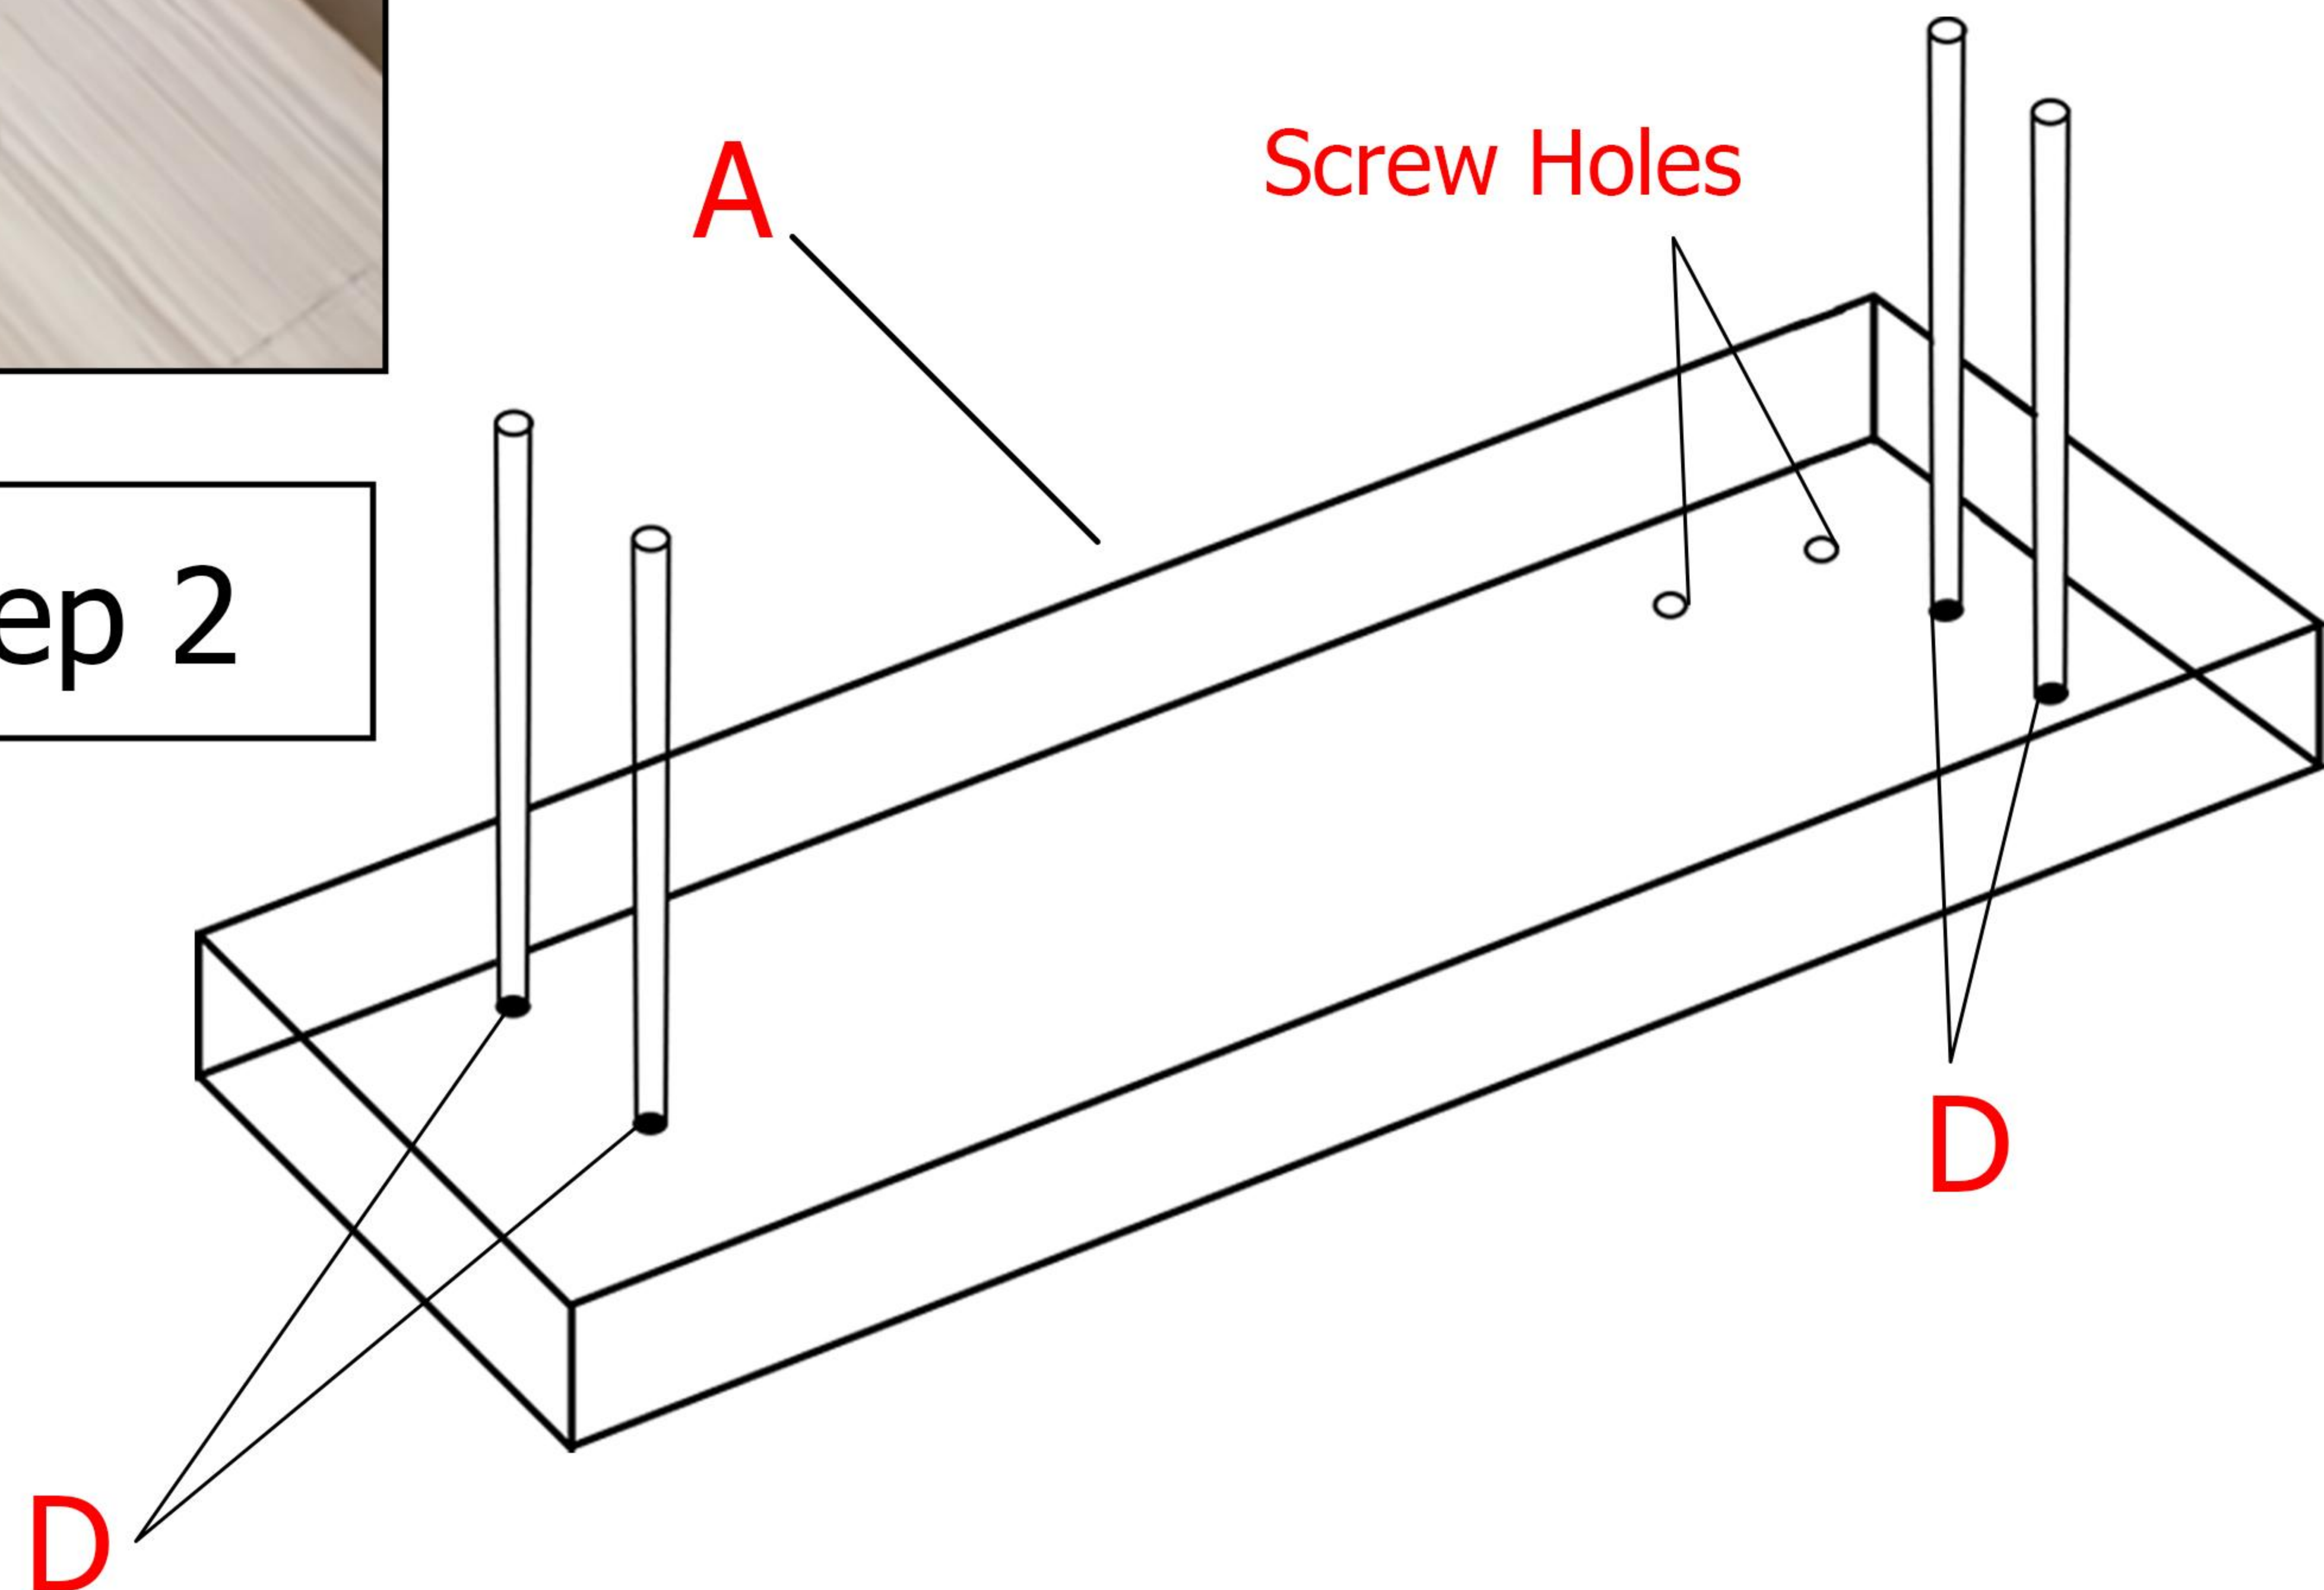

Schematic Diagram for Step 1

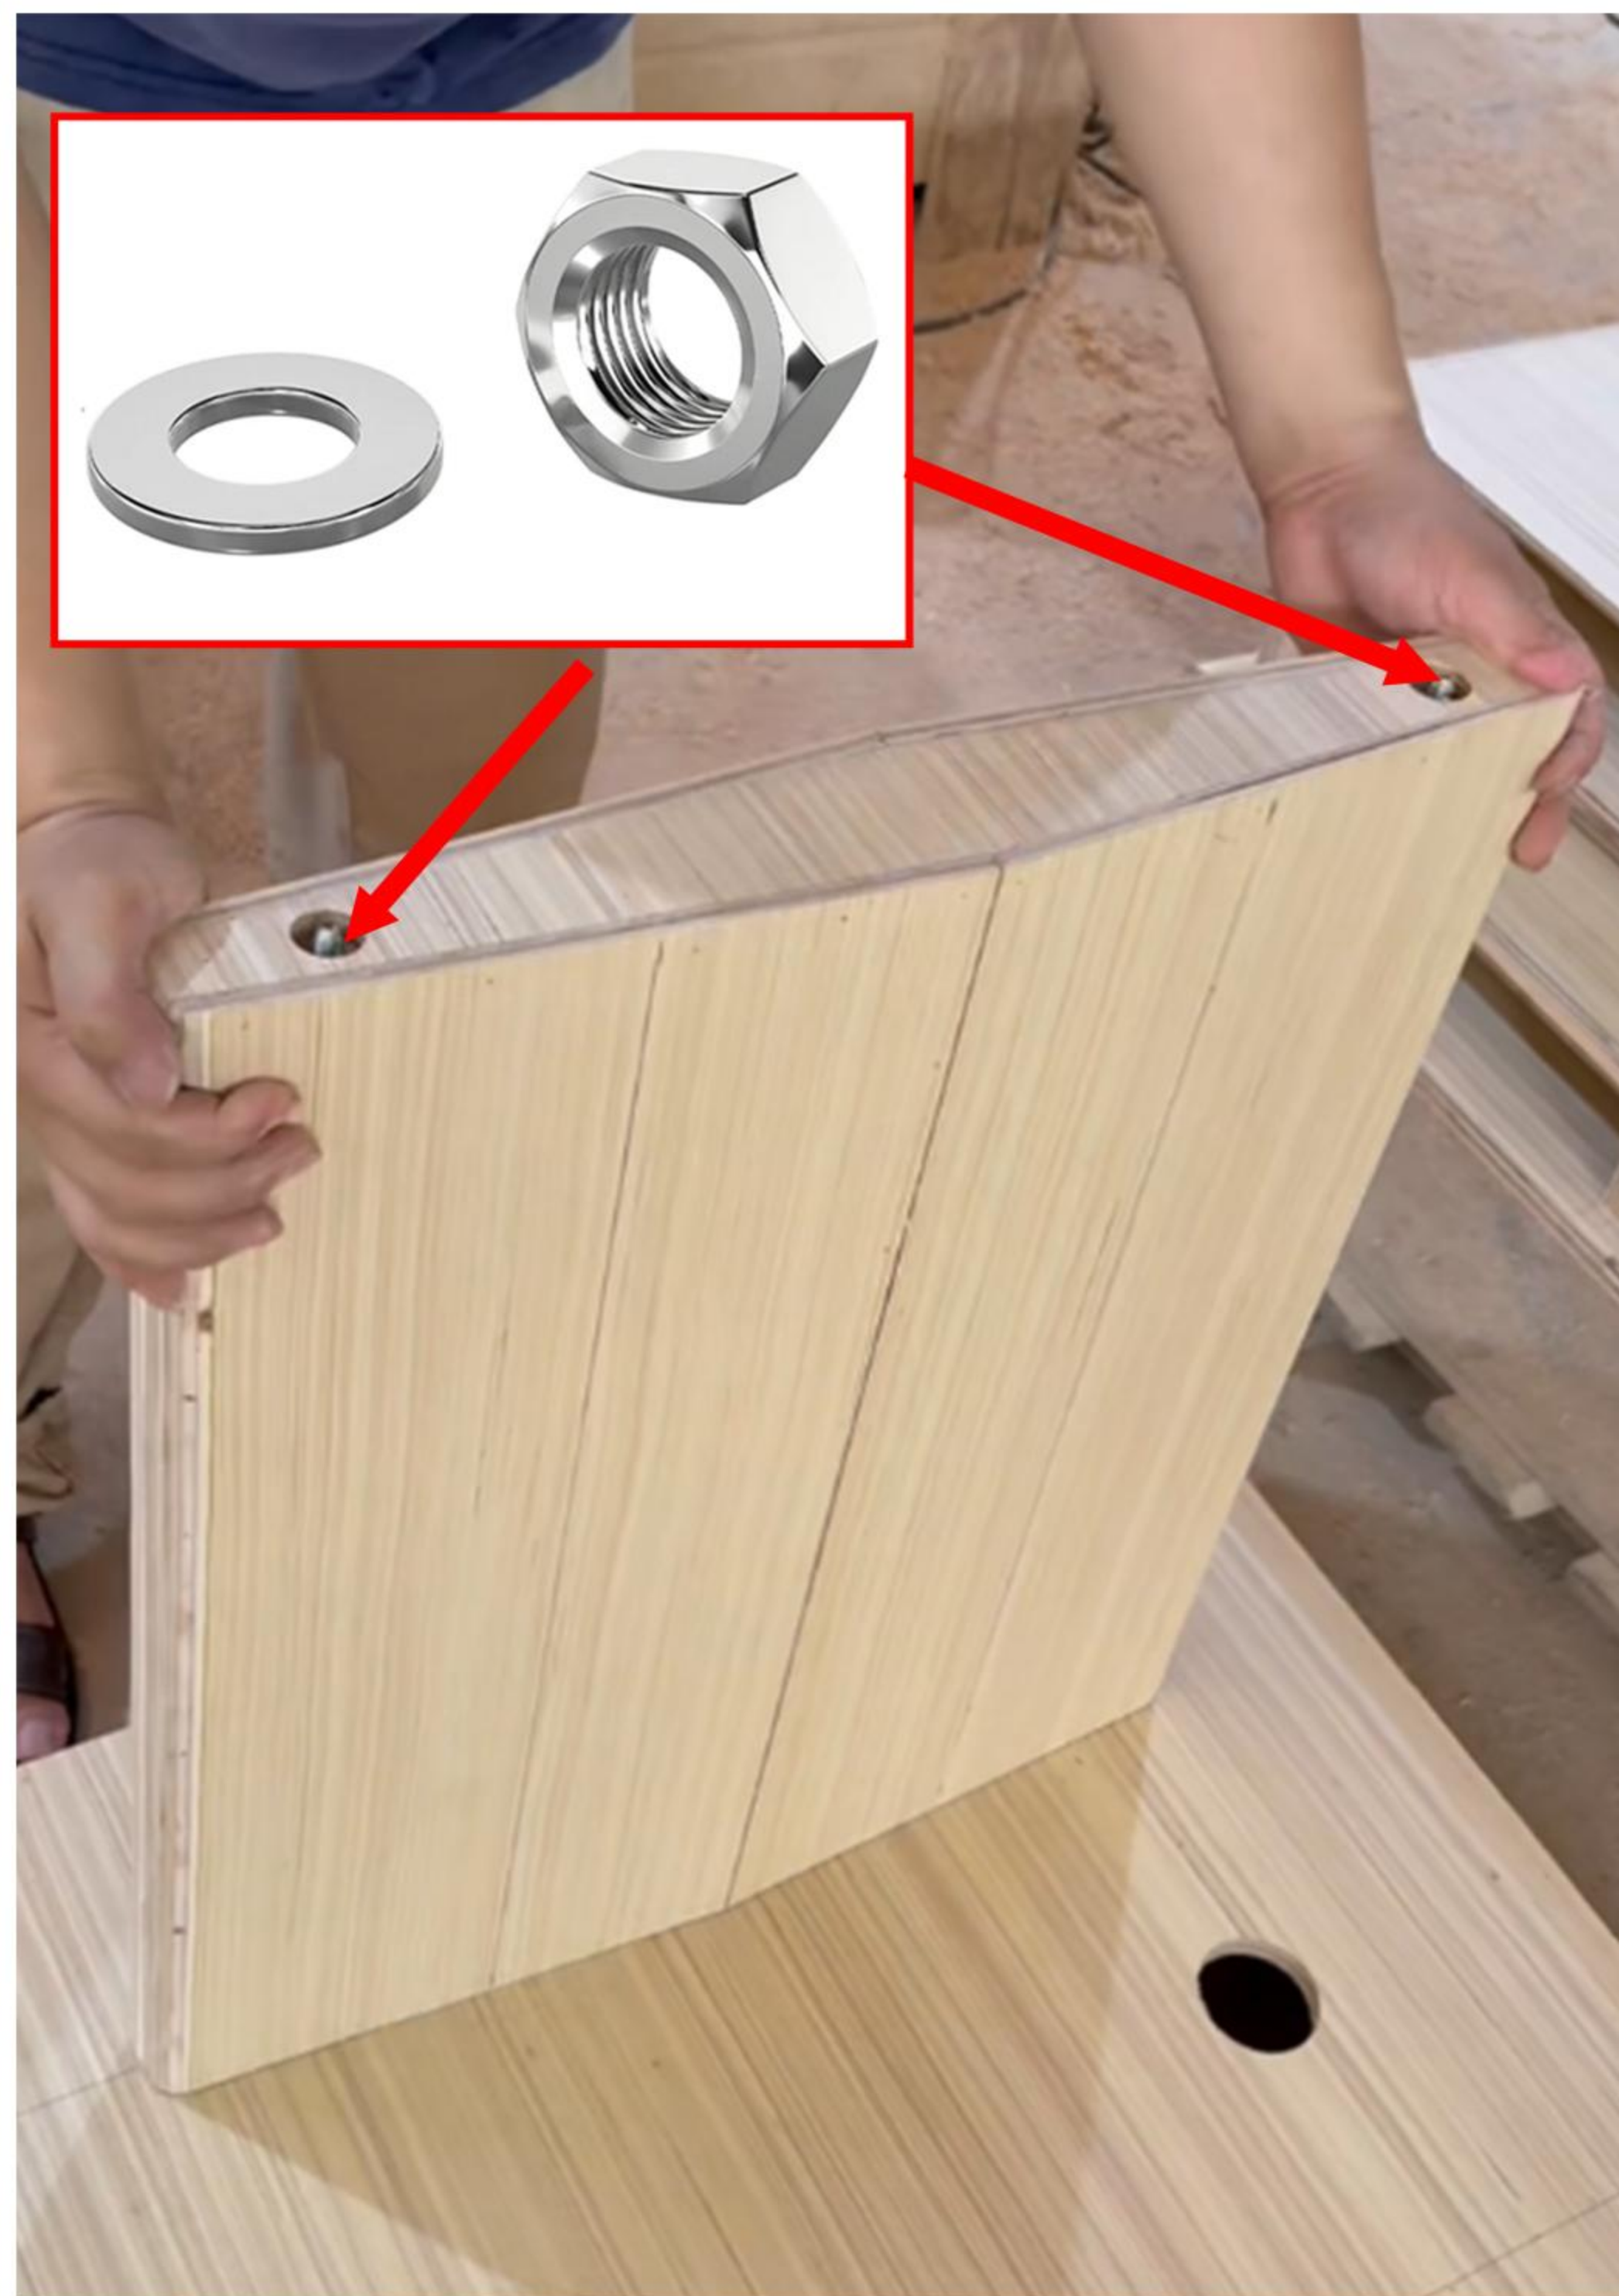

Step 2:
Align the connecting rods directly
with the holes on the back of the
tabletop and tighten them.
(The vertical holes on both sides
are for the connecting rods.)

Schematic Diagram for Step 2

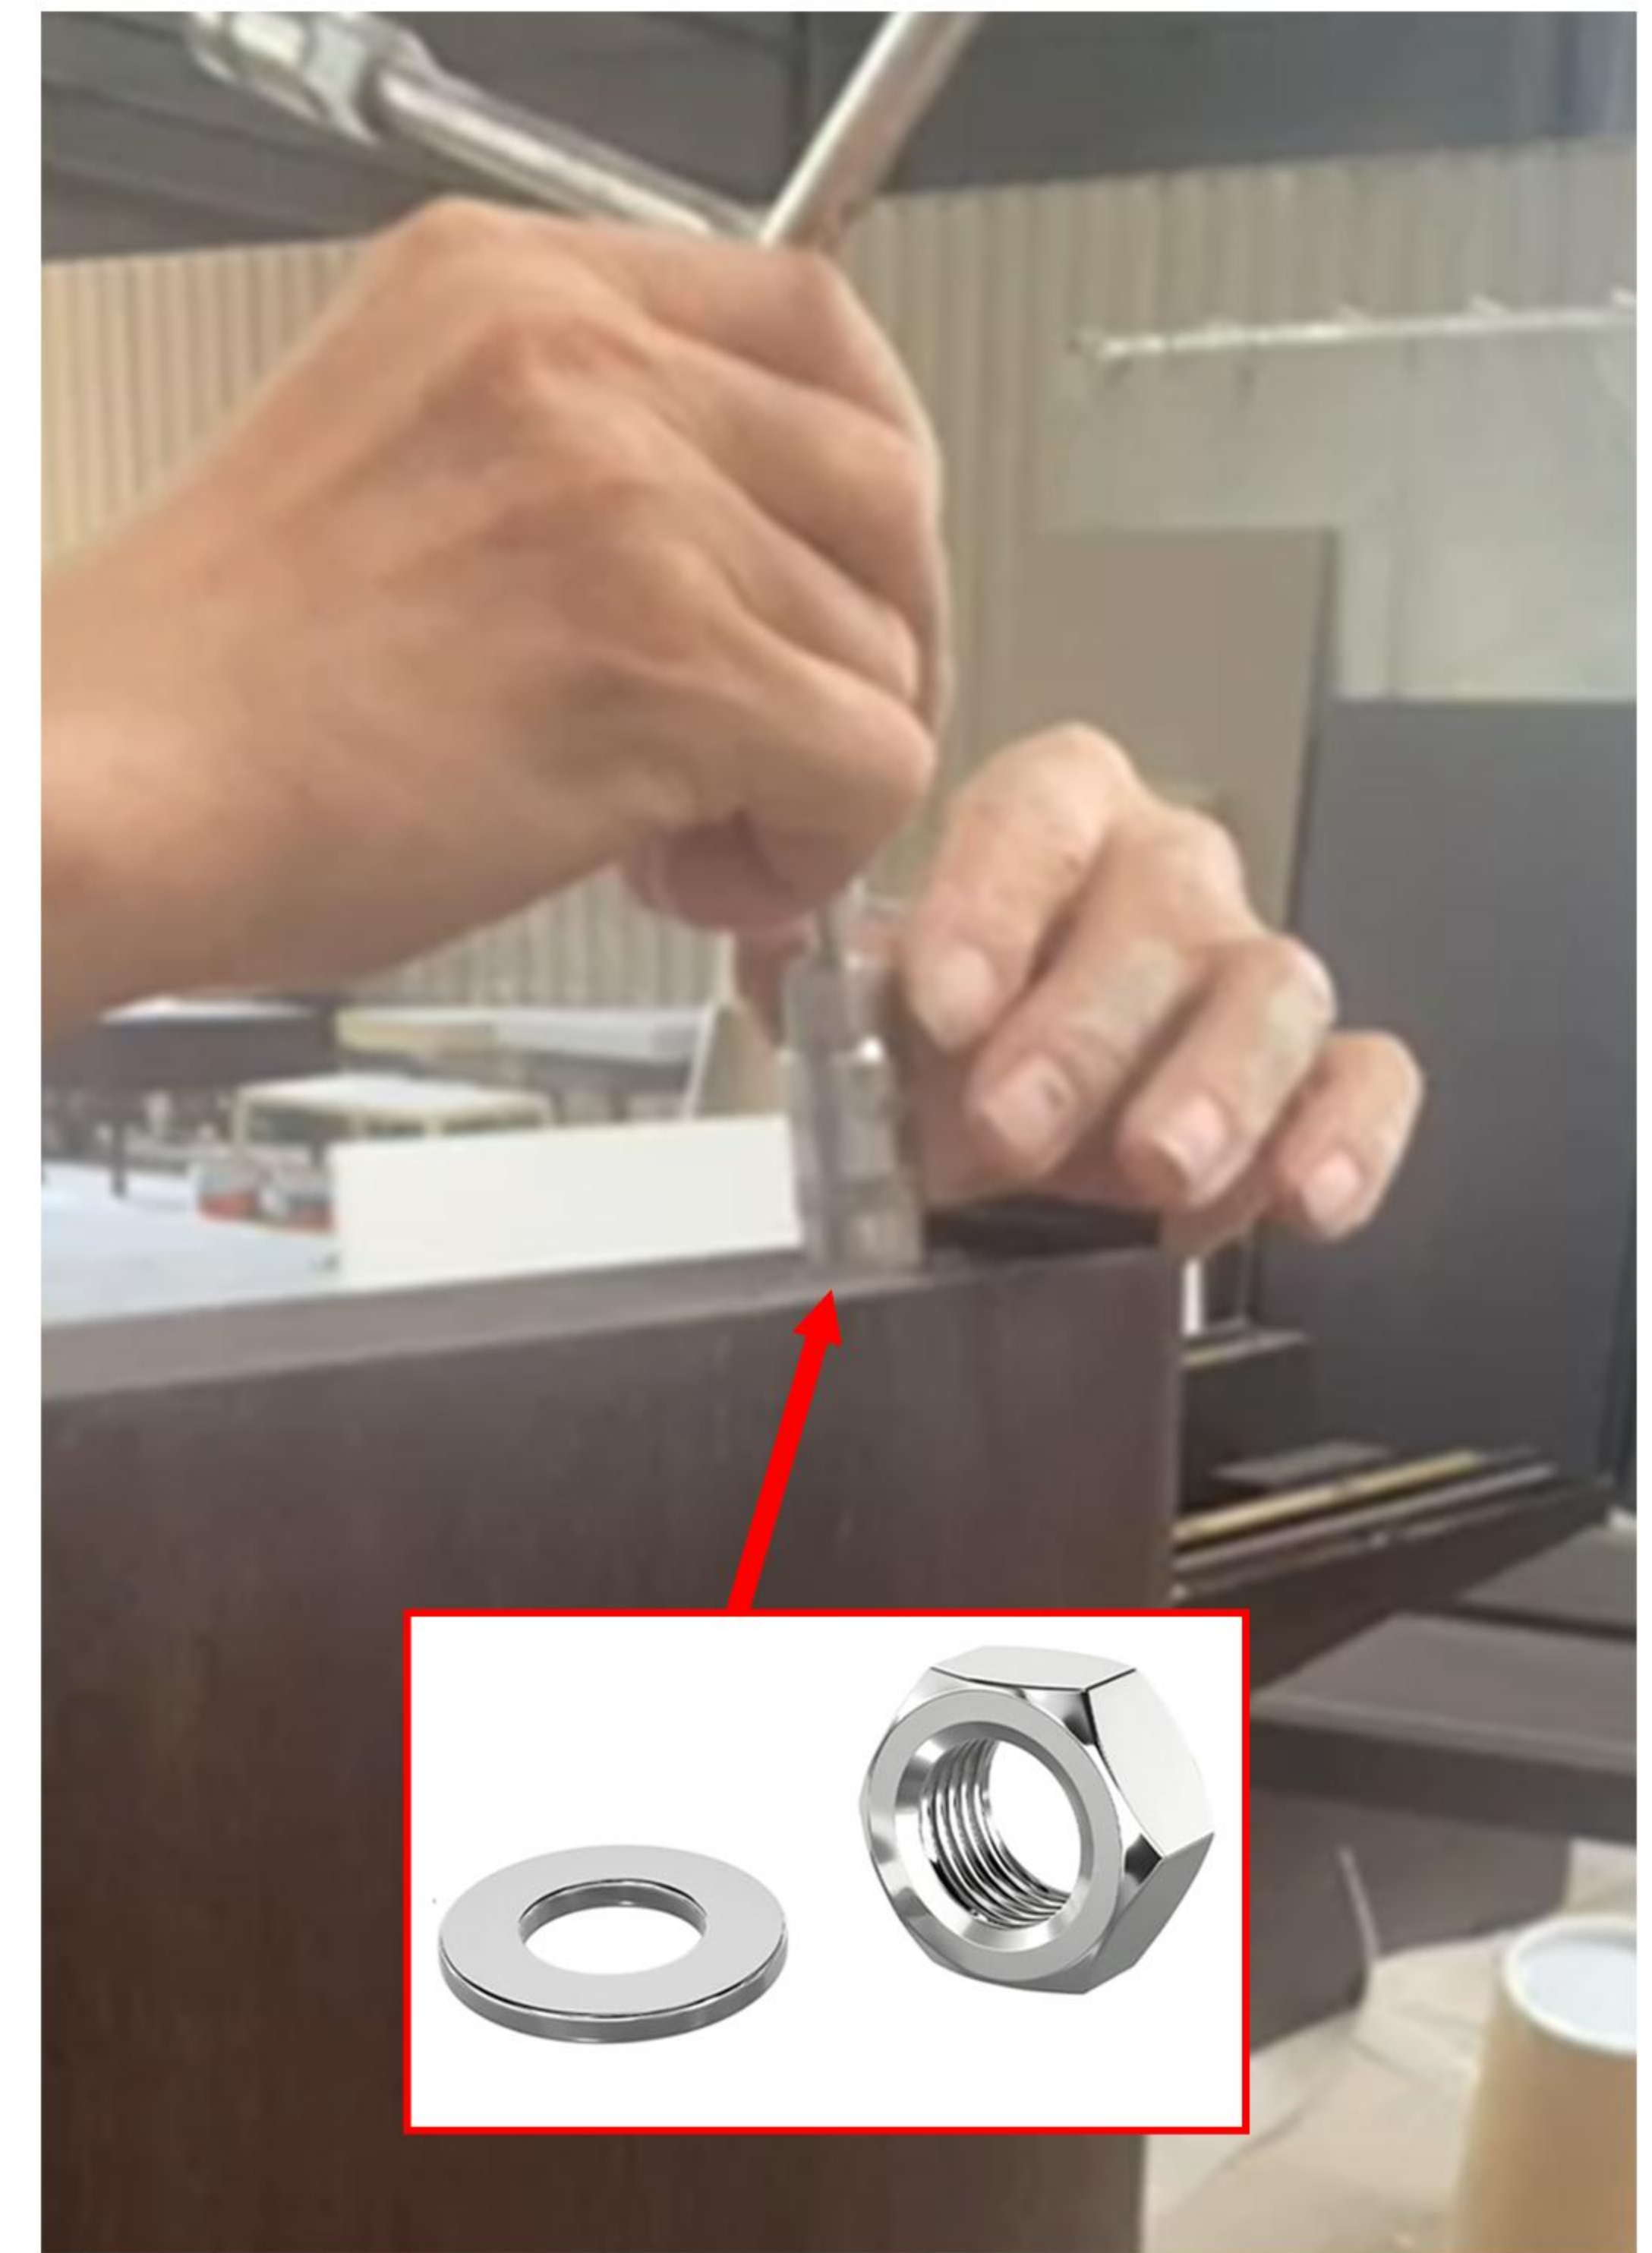

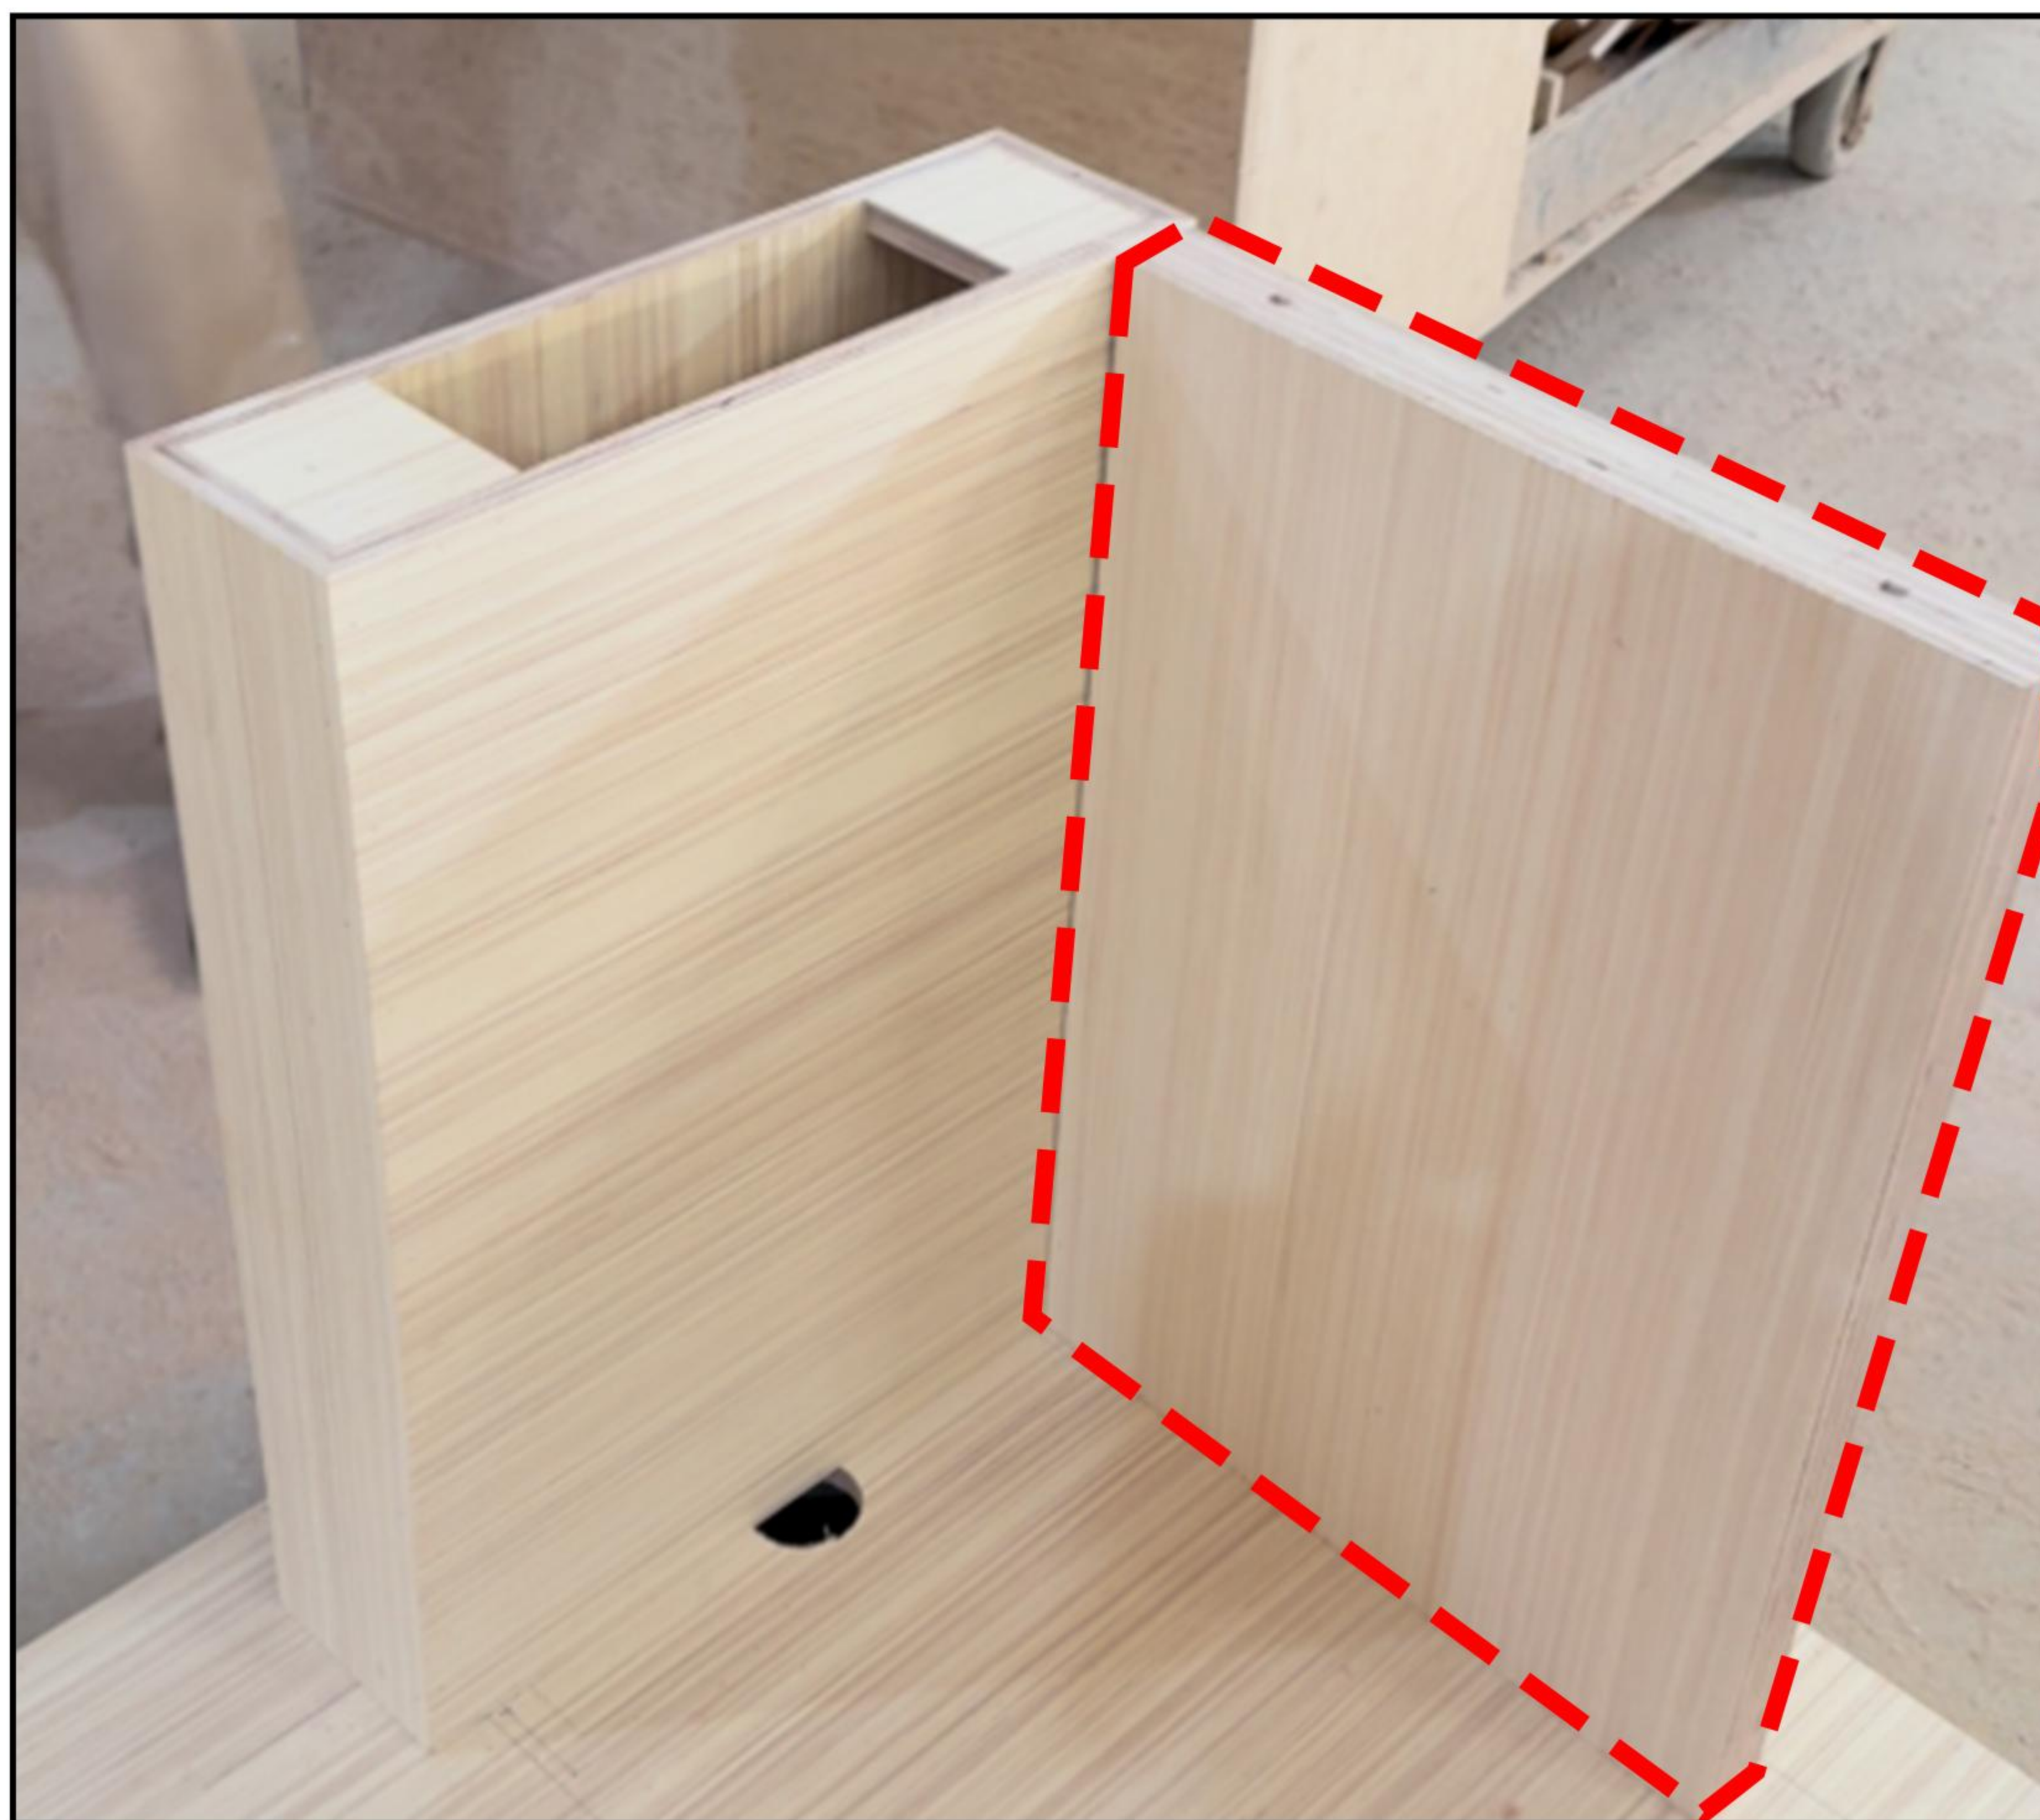

Step 3:
Align the holes of the
diamond-shaped table
legs with the
connecting rods.

Step 4:
Place the table legs
from top to bottom.
(Tighten and secure
the table legs using
gaskets and screws.)

Step 5:
Tighten the gaskets
and nuts with the hex
socket wrench.

Step 6:
Install the other small table leg
by repeating Steps 3, 4 and 5.
(Dashed-line area)

Align with the holes and
insert from top to bottom.

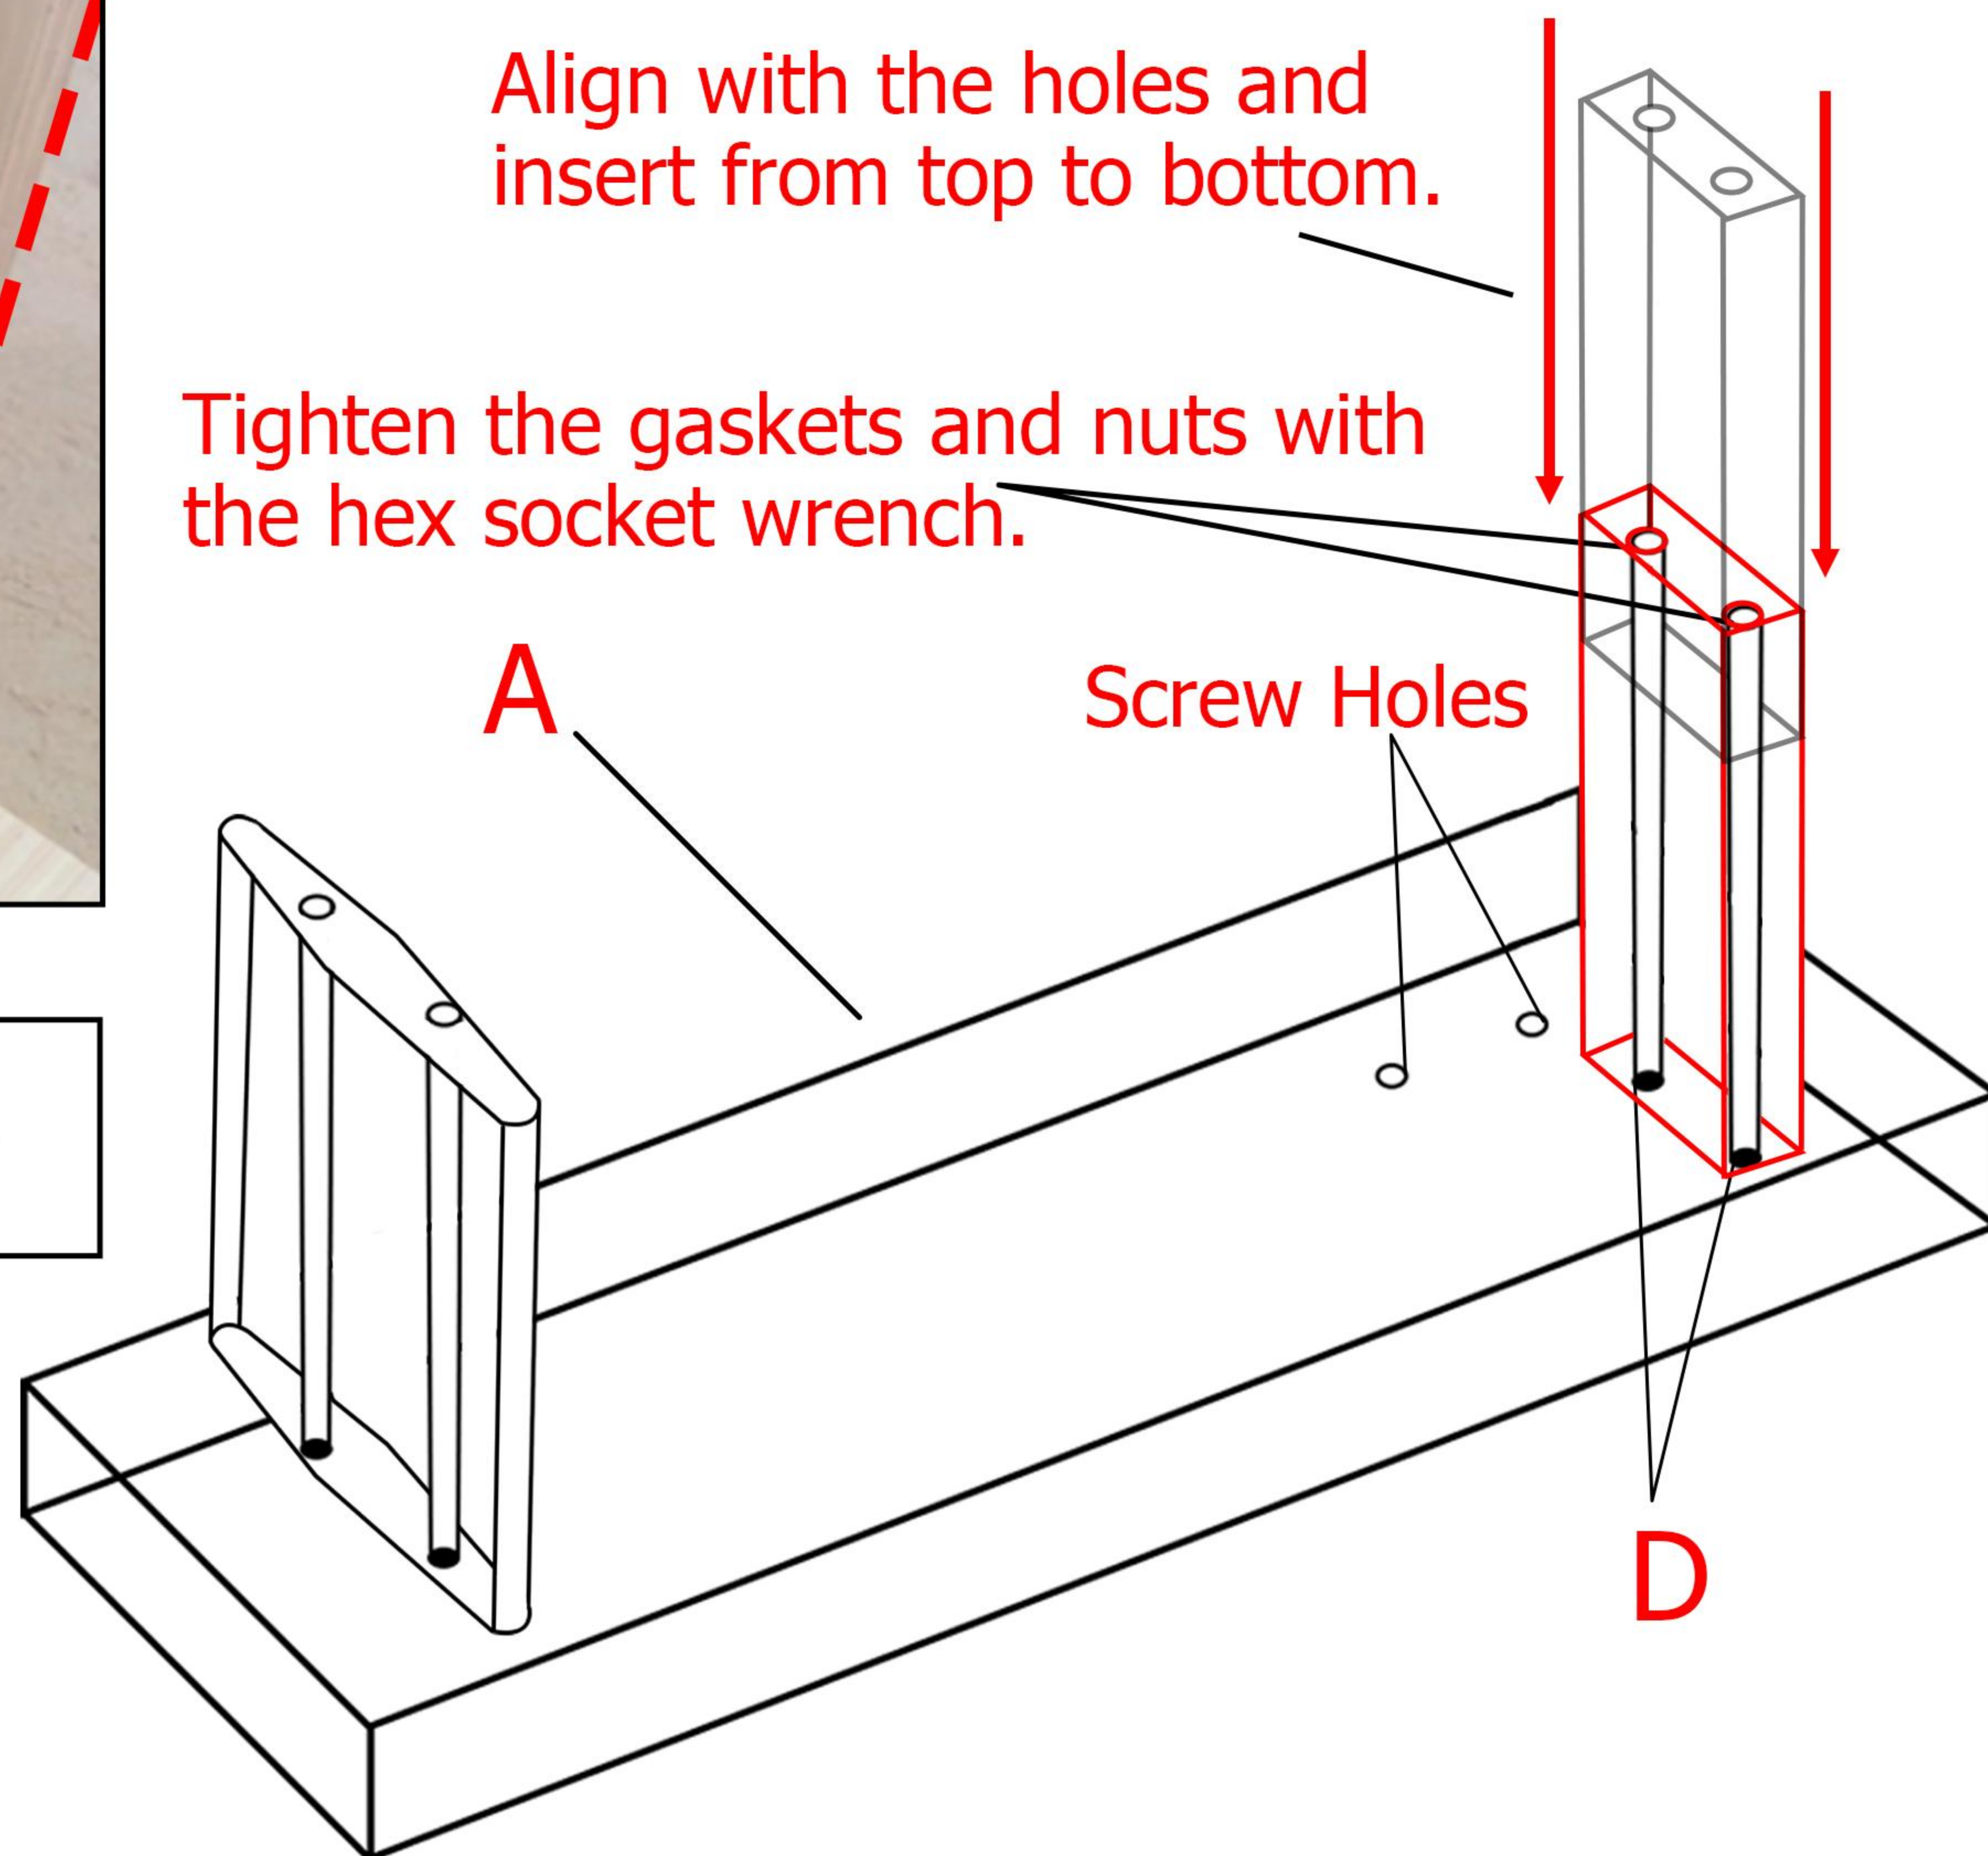

Tighten the gaskets and nuts with
the hex socket wrench.

A

Screw Holes

D

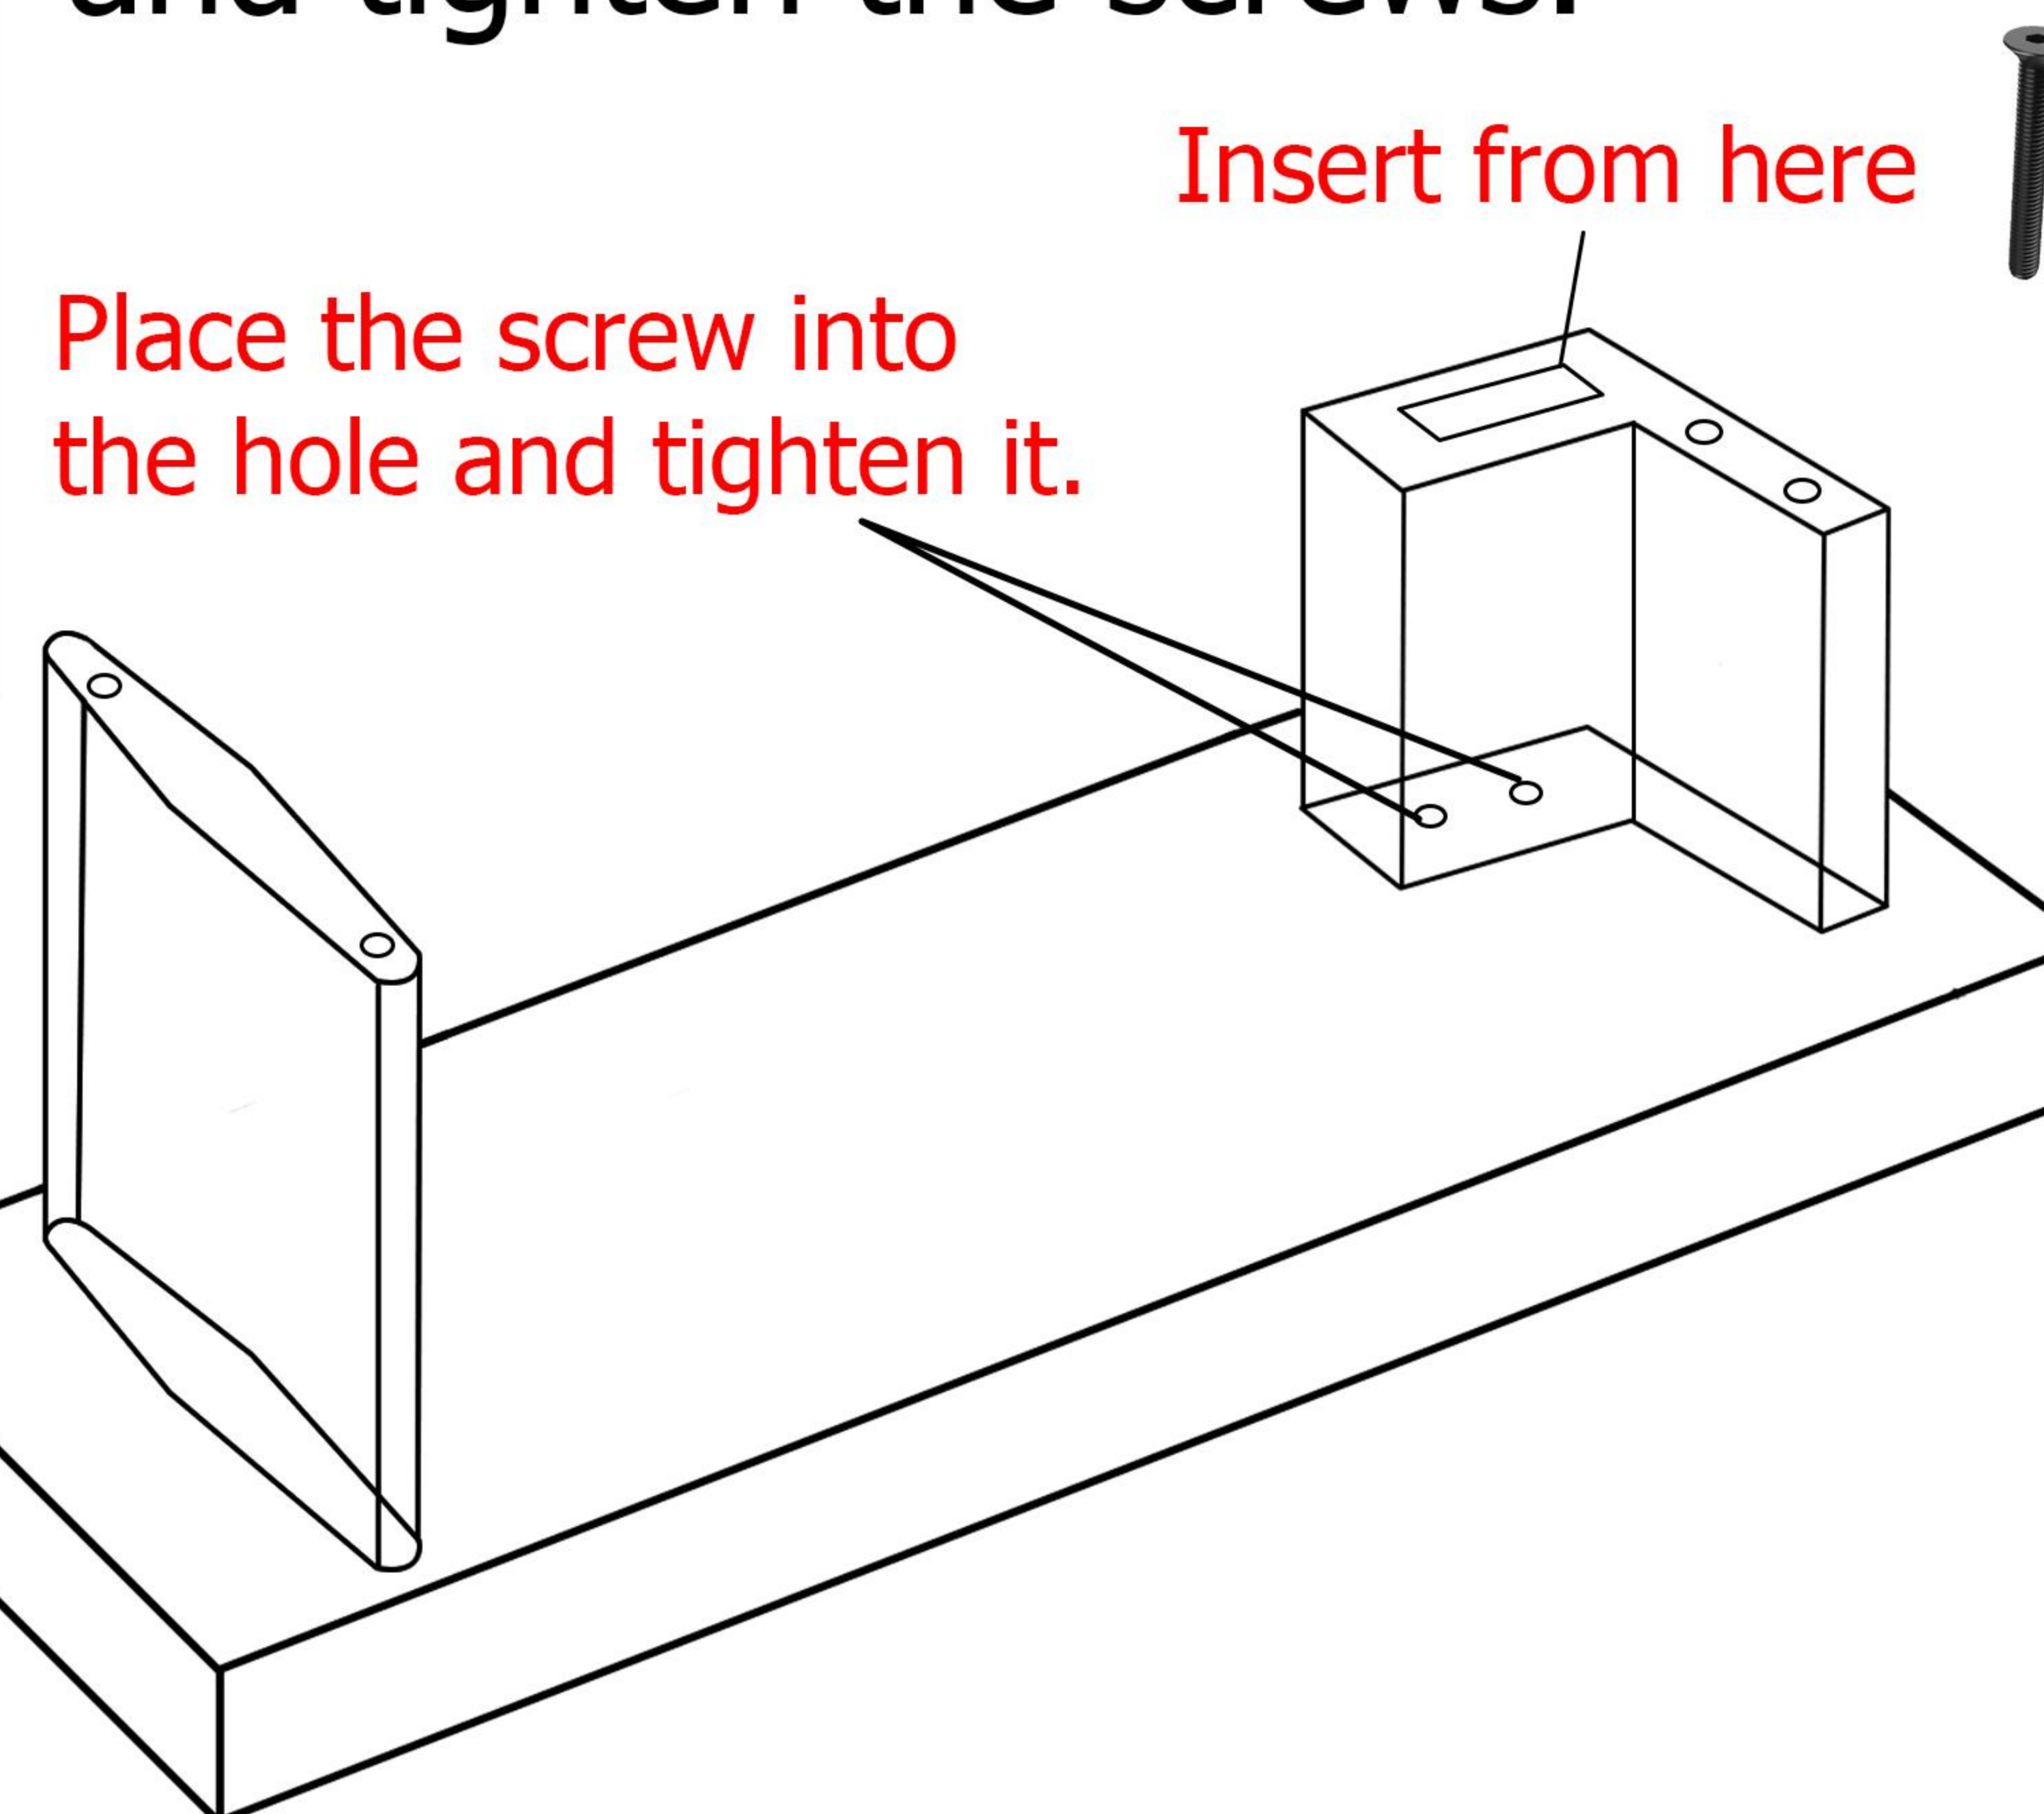

Schematic Diagram for Step 6

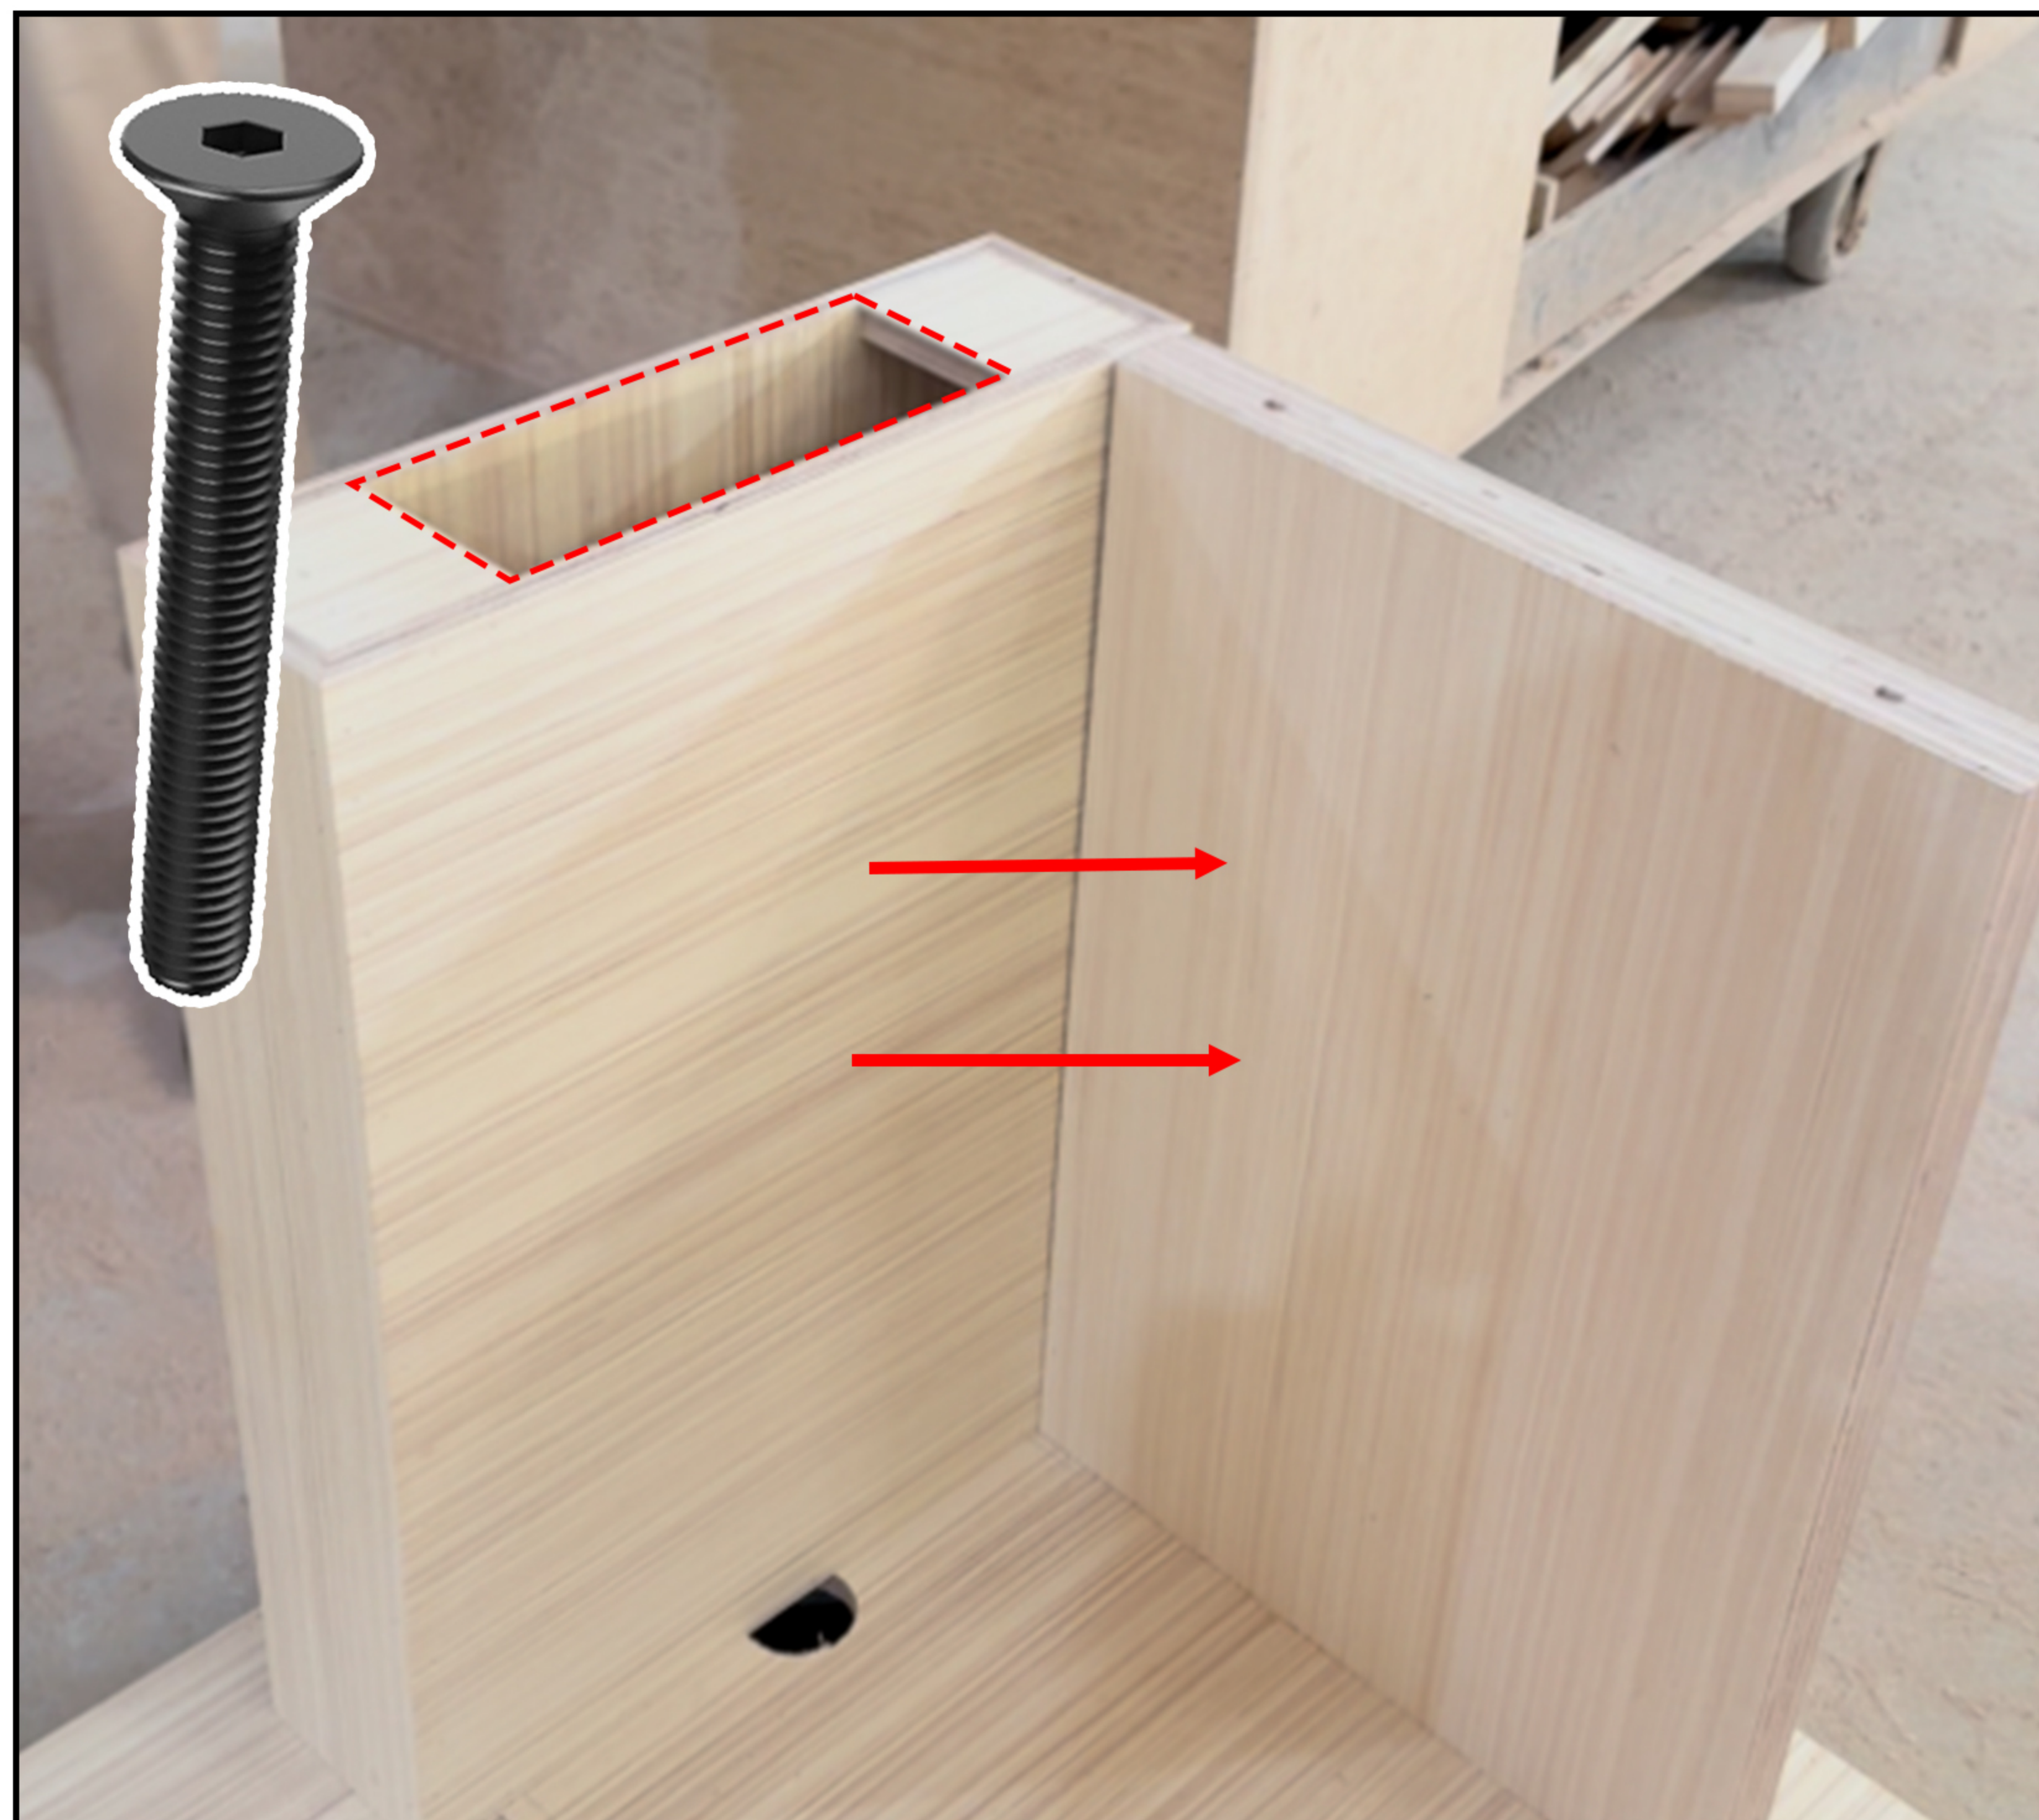

Step 7:

Place the large table leg aligned with the holes (square frame facing upward). Insert the black screws through the square holes, position them into the screw holes and tighten the screws.

Schematic Diagram for Step 7

Step 8:

There are pre-drilled screw holes inside the large table leg.

Use screws to connect and secure the large and small table legs.

Schematic Diagram for Step 8
