

Garden Bed

- This outdoor planter has a built-in water reservoir and pre-drilled overflow hole to ensure your plants have consistent moisture without being oversaturated.
- Avoid using garden soil or top soil for container planting, it's often too dense and restricts air circulation. A potting mix is strongly recommended and will ensure better plant growth.
- Rinse clean with a garden hose; for a deeper clean, use a power washer.
- 15-year warranty residential use, 5-year warranty commercial use.

Polyresin Planter
