RGB Changing Bulb ( Compatible with smart light bulbs and smart plug )

Featuring: 3 MDF Storage Shelves

Shelf Clearance: 15.5"

Shelf Thin Board: Not Exceed 15 Lbs

Shelf Thick Board: Not Exceed 30 Lbs

### Customer Reviews:

The floor lamp is the most unique light assessment I have ever owned.

The tilting capability is so convenient. It allows me to place the lampstand anywhere I want in the house and aim the light in the direction I want.

I don't always need a very bright light so being able to dim the lights is a benefit it allows you to go from a very bright environment to a more subtle relaxing setting. There are also 3 types of lightnings which is a bonus. It's perfect for my living room. ---By Crystal Sky

The lamp I got was very bright and so easy to assemble, everything is basically connected already and the way it was packaged was small for something of this height. It was really bright in comparison to my other lamp, the room I put it in doesn't have alot of space and it has a small window so it is usually dark, but this one lamp alone lights up the whole space and the different brightness and color settings help create a good ambiance.---By Kaitlyn Ho
