

## **Specification**

Model: V10

Detection Method: UV/MG/WM

Power Supply: AC 100-240V, 50/60Hz DC 12V

Plug: US Plug

Power Consumption: 4W

Plug Type: US Plug

Working Volume: <60db

Counting Speed: 600pcs/min

Single-insert Capacity: 100pcs

Working Temperature: 0°C-40°C/32°F-104°F

Applicable Bills: USD, RMB and etc.

Gross Weight: 1.2kg/2.65lbs

Net Weight: 0.7kg/1.54lbs

Package Size: 20.5\*21.3\*13cm/8.07\*8.39\*5.12in

Product Size: 19.5\*17.7\*10cm/7.68\*6.97\*3.94in

## **Package Included**

1\* Colorful Box

1\* Money Counting Machine

1\* US Plug Power Cord

2\* Money Counting Brackets

1\* English Manual

## **Notes**

1. It is very important to put the money orderly when counting, otherwise, the bills can't run smoothly and it will affect the counting result. If you count the new bills, please tap the bills on the table to make sure they don't stick together.
2. Please kindly push the power plug to the bottom of the socket and make sure there is no gap between the plug and socket.
3. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
