

Use & Care Bamboo Products

Cleaning Instructions

- Clean using a soft cloth or sponge dampened with mild warm soapy water
- Dry with a soft, clean cloth
- Dust regularly with a dry dust cloth or feather duster, gently wiping over the surface
- If needed, use a soft-bristled brush for joints or crevices
- Avoid contact with abrasive substances, such as steel-bristle brushes, alkaline, or similar products or scrubbers
- Unsightly discoloration? This can be cleaned using the same steps above – Use a mild soapy solution and a sponge or soft-bristled brush to remove it and apply slight pressure when necessary. After cleaning, always dry with a soft, clean cloth

Keep in Mind

Although your bamboo furniture may be resistant to water and bacterial build-up, it is not waterproof. Proper care and cleaning are still necessary (see above cleaning instructions).
