Dear Customer.

This product you have purchased has been subjected to all tests and checks by us before it reaches you. Even in this case, some parts may be damaged during transportation. In such cases, do not send the entire product back, only request the damaged part from us. The missing part will be sent to you immediately. Before starting the assembly, check all the parts and accessories included in the box according to the list. After making sure that the parts and accessories are intact, you can start the assembly. Before starting assembly, wipe each part with a damp cloth.

In order for the installation of this product to be more robust and safe, 2 (two) people are required. Installation can be achieved in approximately 20 to 30 minutes.

If you have purchased more than one product, do not start installing the other product before the installation of one of the products is completed in order to avoid any confusion.

Never move the products by rubbing them. Carry the products by 2 (two) people by lifting or disassembling them.

If you are going to transport it long distance, be sure to pack the product carefully.

To clean the product, wiping it with a damp or soapy cloth or using other cleaners will be sufficient.

Since furniture is affected by extreme heat, cold and humidity, do not directly expose it to these factors. Do not use your furniture for purposes other than its intended purpose.
