

Cleaning Instructions for Leather

1. **Dust and Vacuum:** Use a soft, dry cloth or a vacuum cleaner with a soft brush attachment to remove dust and debris from leather furniture.
2. **Spot Clean Spills:** Immediately blot spills with a clean, dry cloth. Do not rub, as it can spread the stain.
3. **Condition Leather:** Regularly apply a leather conditioner to keep the leather soft and supple. Follow the manufacturer's instructions for best results.
4. **Avoid Harsh Chemicals:** Do not use harsh cleaners, alcohol-based products, or abrasive materials on leather furniture, as they can damage the leather.
5. **Protect from Sunlight:** Direct sunlight can cause leather to fade and dry out. Place leather furniture away from windows or use UV-protective curtains.
