

# HLG188

Version: 1.0

As this item contains many parts, please read the installation instruction carefully before installation . Please use tools properly and carefully.

If you have any questions about the product and installation, please contact us.

**Email: [support@anymaple.com](mailto:support@anymaple.com)**

Our professional after-sales team will serve you online all day.

**EN\_QUICKFIT:** Tighten quickfit until shoulder is flush with panel. Do not overtighten or undertighten.

**EN\_CAM LOCK:** When fitting cam lock, ensure starting position is correct before you insert connecting quickfit.

**EN\_Quickfit** head should be in the centre of the cam lock when the two panels are joined.  
Cam lock should be inserted before quickfit.

**EN\_Turn** cam lock clockwise to tighten.

**Attention:** This step requires two people, one to install and the other to support the back panel of mirror 33.

**Need Two or More  
People To Complete**

**Notice**

**180°**

**Notice**

**(1)** Please place the back panel of mirror 33 in the middle of board 11, and thread the power cord on board 33

**(2)** Please place the bottom accessory "S" of mirror backplate 33 into the U-shaped slot in front of plate 11, as shown in the following figure.

**(3)** Use your left and right hands to press down on the accessory "R" on the top of mirror 33, and then push it towards the inside of board 2, as shown in the following figure.

**(4)** Push the accessory "R" on the top of mirror 33 into the U-shaped groove in front of plate 2, as shown in the following figure.

Please tear off the film on the outside of the mirror.

D x2

L x2

Done

(1)x2

First, use a ruler to measure the approximate height of the product on the wall, and then mark it with a pen.

(3)x2

Then, put the expansion bolt into the hole

(2)x2

Then use a tape drill to make holes in the wall that are suitable for the product screws.

(4)x2

Finally, pass the matching screws through the "anti-rewind" and tighten them to fix them on the wall.

We have included a set of tipping restraint hardware for this unit. You install this hardware to prevent accidents or injuries that can result from the unit falling. When properly installed, this restraint can provide protection against the unexpected tipping of the unit due to small tremors, bumps or climbing.

We strongly recommend mounting this hardware to a wall stud and your unit.

Young children can be seriously injured by tipping furniture. You install the tipping restraint hardware with the unit to prevent the unit from tipping, causing any accidents or damage. The tipping restraints are intended only as a deterrent and are not a substitute for proper adult supervision.

The tipping restraints are not earthquake restraints. If you wish to add the extra security of earthquake restraints, they must be purchased and installed separately. Depending upon your wall construction different anchor hardware maybe required. Please contact your local hardware store for assistance.
