

How to use the power bank:

1. Charging the makeup mirror with power bank

Before charging your devices with power bank, please charge it fully by 2-3 hours, it should be recharged every 6 months when not in use.

*Insert the charging cable's standard USB connector into the USB port of the computer or USB power adapter(excluded) ①

*Insert the Micro USB connector into the power bank

*The indicator lights will show the current charging level

*It is fully charged when the indicator lights are all solid blue (It has a built-in overcharge protection)

2. Charge your devices with power bank

*Insert your device's USB charging cable into power bank's USB output port.②

*Insert the other end of the USB charging cable into your device

*Press the power button, Then your device should indicate that charging has started.

Troubleshooting

Please use the following steps if the makeup mirror with power bank cannot charge your device.

1. Verify that it has been completely charged. (You may need to charge it for a while to activate it)
2. Check that the USB charging cable is properly connected to the power bank.
3. Check that your device has its battery installed (Some devices cannot work when without an installed battery.)
4. Check whether your device can support 5V charging. If not, this power bank cannot power your device.

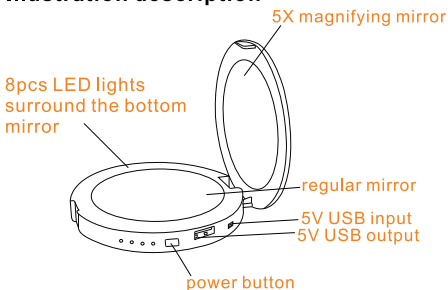

Notice:

Please do not disassemble or short circuit battery.
