

WIRE SHELVING INSTRUCTION

Assembly Steps:

- 1 Screw the Nylon Casters (E) into the bottom of four Lower Poles (B) and fastened by wrench. Snap Plastic Clips (D) onto the pole grooves of four lower poles at the same position and make sure that the arrow of plastic clips are pointing up.
- 2 Please make sure Wire Shelf (A) the correct way up. Hold the wire shelf on its side and slide the top of four lower poles through the bottom of each shelf at its corners until there is snug fit. After 4 poles have been slid through the shelf collar holes, set the shelf upright.
- 3 Snap plastic clips into the pole grooves of the lower poles at your desired shelf height position. Slide down the shelf from top down onto the plastic clips.
- 4 Screw Upper Poles (C) into Lower poles by screw connectors which is already on the upper poles.
- 5 Repeat the step 3 to assemble the rest of wire shelves at the place you desire.
- 6 Once all five wire shelves have been installed, pushing firmly down on every shelf at corners by rubber mallet to ensure the shelf in a place over the plastic clips.
