

# **Plant Cat Litter Box**

## **Installation Manual**

# Main component installation

---

## 1. Main body installation

The main components of the plant vase consist of the top shell, middle shell, and bottom shell.

Align the top shell and the middle shell so that the lock holes match up.

Apply downward pressure to the top shell and insert it onto the middle shell.

Rotate the top shell clockwise until it locks securely into place.

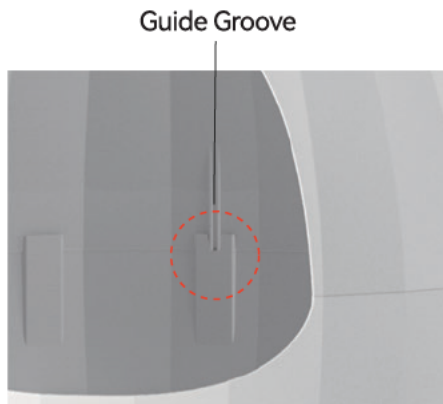

## 2. Cat door curtain

Please align the door curtain with the joint position on the middle shell, carefully position it at the designated joint area, and ensure it is properly aligned and securely adhered.

### 3. Installation of middle shell and bottom shell

When installing downward, pay attention to align the guide groove first.

### 4. Installation of foam pad

Place the foam pad into the

### 5. Place the pebbles on the foam pad and insert the artificial plant into the groove

# Product Description

The plasma deodorizing system located at the upper portion of the product effectively eliminate odors resulting from cat litter waste and offers antibacterial properties.

Product name: Plant Cat Litter Box	Product model:
Product size: 19.7" * 19" * 23.1"	Actual power: <3.8 W

## Safety Precautions

---

Thank you for purchasing Petterm Plant Cat Litter Box. Before using the product, we kindly ask you to carefully read and follow the instructions provided. Please make sure to keep this manual for future reference.

Prior to using this product, please read the product manual thoroughly. By installing or using the product, you acknowledge that you have carefully read and accepted the following safety instructions.

### Important Notes:

- This product is designed for use with adapters that input AC100V-240V and output DC5V/1A. Please ensure that you use power adapters that meet the standards of your country or region.
- Please note that product damage resulting from improper operation will not be covered under warranty.
- The manufacturer reserves the right to make modifications without prior notice, with the final interpretation authority resting with the manufacturer.

### Safety Guidelines:

Violation of the following instructions may lead to abnormal use of the product or unexpected losses. We strongly advise you to strictly adhere to the following guidelines.

- Install and use the product strictly in accordance with the provided instructions.
- Selectively use this product based on your pets' specific needs and circumstances. Keep the product away from fire sources.
- While the product operates in low power consumption and low voltage mode, please be aware that pets may chew on the cable, potentially causing electric leakage or electric shock. Ensure correct guidance and supervision during use.
- Use an AC110V-240V input and an AC110V output, conforming to relevant national and regional standards, with a DC5V/1A adapter. Using an incompatible adapter may damage the product and pose safety hazards.
- The upper cover operating parts of the product should not be washed or soaked.
- This product is intended for use by adults aged 18 and above. Children are strictly prohibited from playing inside the litter box.
- It is not recommended to operate the product continuously for 24 hours. We suggest using it in well-ventilated areas larger than one cubic meter.
- The manufacturer shall not be held liable for any consequences resulting from illegal operation.
