## Martini Melody 1

D2501S50008-4046

Martini Melody 1 is a black-and-white photograph that is a perfect metaphor for the era of jazz. An interplay of playful contrasts between light and shadow imbues this scene with a sense of nostalgia reminiscent of a cozy, underground jazz club.

The viewer is invited to step into the frame, to sit at the piano, to pick up the martini, and to contribute their own notes to the setting.

A beautiful composition reflects both the objects on display and the essence of the early 1900s in this original addition to ART by TA.
