IMPORTANT: please read these instructions fully before starting assembly

**SAFETY AND
CARE ADVICE**

NO POWER TOOLS

- Check you have all the components and tools listed
- Remove all fittings from their bags and separate into groups
- We do not recommend use of power tools - this could damage the unit. Only use hand screwdrivers and Allen keys
- Keep children and animals away from the work area, small parts could cause choking if swallowed
- Make sure you have enough space to lay out the parts before starting
- Assemble the item as close to its final position (same room) as possible
- Do not over tighten the nuts to avoid damage to the threads
- Only clean using a damp cloth and mild detergent. Do not use bleach or abrasive cleaners
- Do not allow children to climb or play on this product. From time to time, check there are no loose screws in this unit
- This product should not be discarded with household waste. Take to your local authority waste disposal centre
- Unless otherwise stated, this product is designed for domestic use and is not certified for commercial or contract settings

STEP 9 - Anti-tip Restraint

WARNING

To reduce the risk of serious injury or death from tip-over, this unit must be securely anchored to a suitable wall before use.

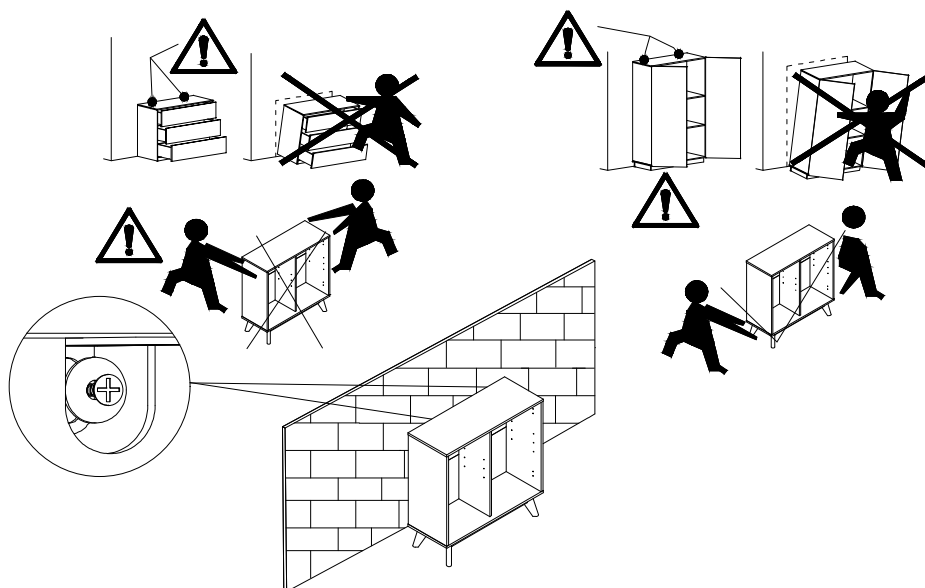

- Never allow children to climb, stand or hang on this furniture.
- Always secure the unit to a suitable wall using appropriate fixings for your wall type.
- Before drilling, check for hidden electrical cables, water pipes and other concealed services.
- If you are unsure how to install the anti-tip restraint or select suitable fixings, seek advice from a qualified installer or your local hardware store.

Installation

1. With assistance, move the cabinet into its final position.
2. Using the attached L-brackets [J] as a guide, mark the fixing positions on the wall.
3. Move the cabinet away from the wall and prepare the wall for fixing as required.
4. Reposition the cabinet and securely fasten the L-brackets [J] to the wall using fixings suitable for your wall type.
5. Check that the cabinet is level, stable and securely anchored before use.

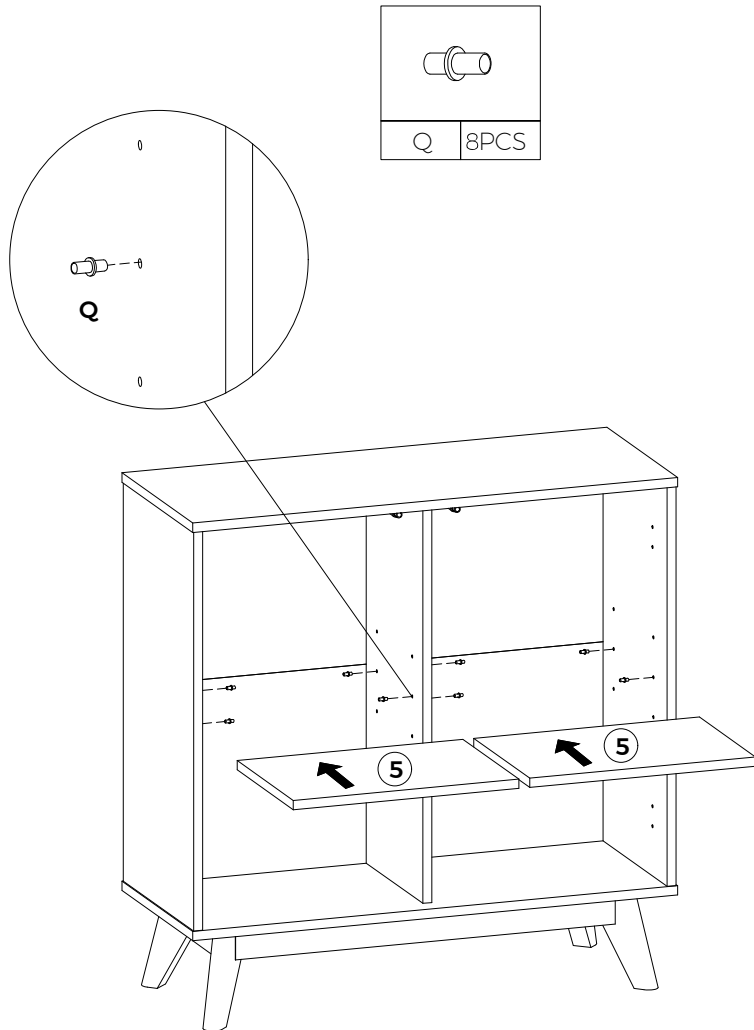

Important Handling Note

Always lift the cabinet from the base. Do not lift or carry the cabinet by the top panel, as this may cause damage or separation.

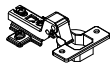

STEP 10

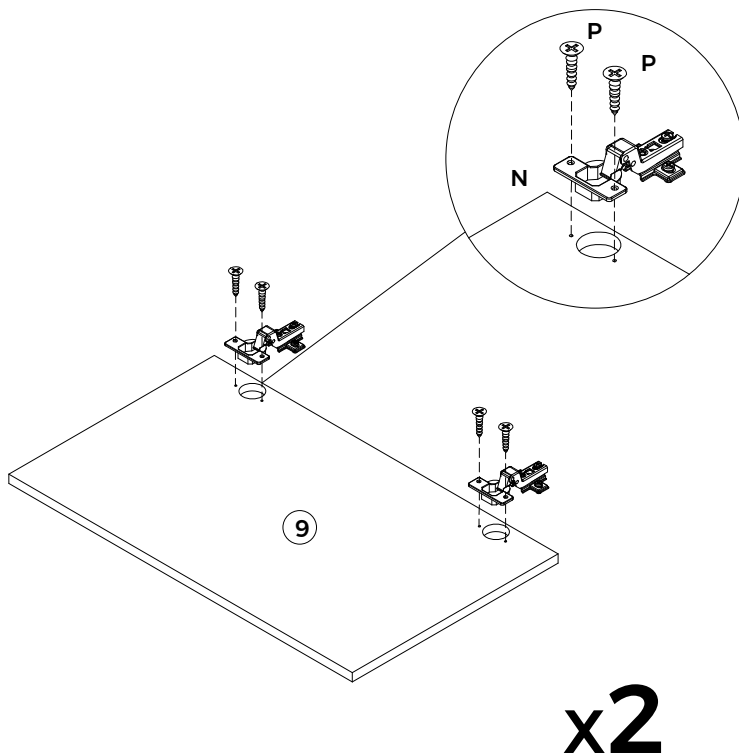

Insert 8 x shelf pins [Q] into desired holes in the panels.
Place 2 x shelves [5] into cabinet as shown by resting on the shelf pins.

STEP 11

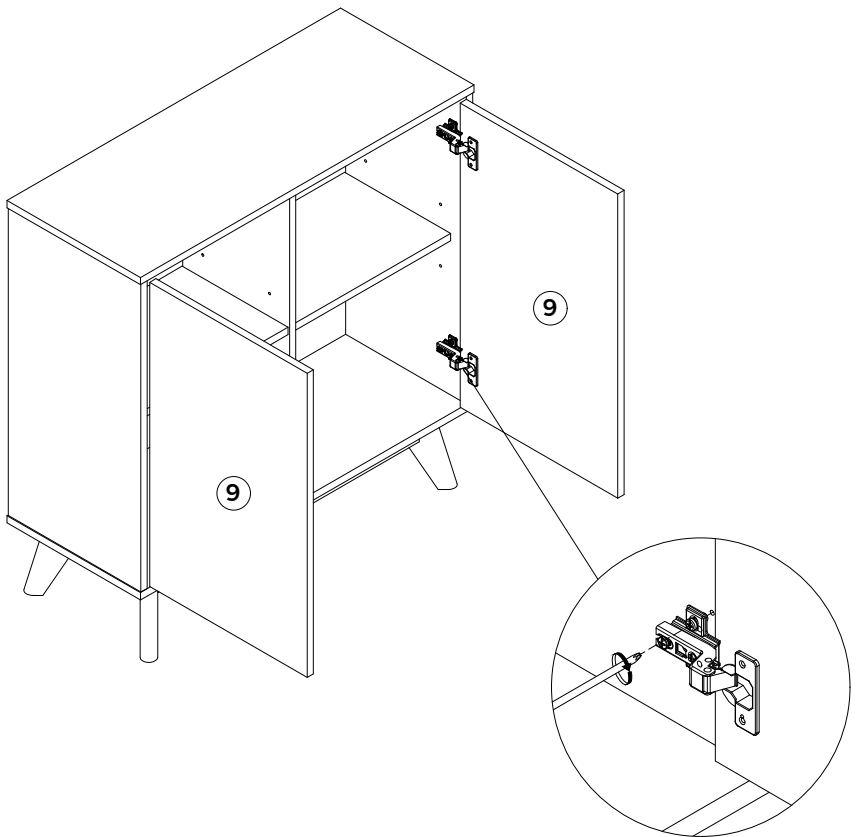

Attach 4 x Hinges [N] to 2 x Doors [9] with 8 x screws [P] as shown, tighten with a Phillips head screwdriver.
