## Required Electrical Service

One dedicated circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI). Outside North America, this device may be known as a Residual Current Device (RCD).  
 120 V, 15 A, 60 Hz

## Technical Information

All product dimensions are nominal.

Seat shape type: Elongated  
 Seat front type: Closed-front  
 Seat-mounting holes: 5-1/2" (140 mm)  
 Power cord length: 43" (1092 mm)

## Notes

Install this product according to the installation instructions.

Connect the seat to a cold water supply of drinking quality water at a pressure of 20 psi - 80 psi (139 kPa - 551 kPa).

Do not install this seat in a location where: (1) water might be splashed on the product or (2) excessive moisture, high humidity levels, or condensation is present. This will avoid damage to the electronic components.

Do not use an extension cord with this product.

To avoid possible product malfunction, do not plug in the seat until instructed to do so.

Locate the receptacle at least 6" (152 mm) above the floor, and within a 32" (813 mm) radius measured 2" (51 mm) from the bowl ledge.
