Installation Guide

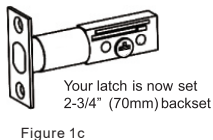

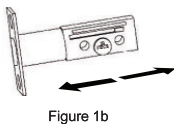

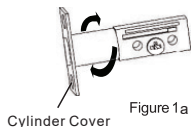

Adjustable Deadbolt Latch Set

NOTE: Deadbolt Latch Set is shipped with the backset set at 2-3/8" (60mm). Measure the backset (backset is distance between edge of the door and the center of Lock).

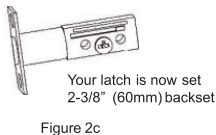

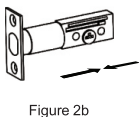

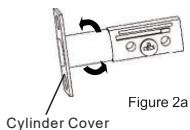

1. TO CONVERT FROM 2-3/8" (60mm) BACKSET TO 2-3/4" (70mm) BACKSET

- Rotate the cylinder cover clockwise (Figure 1a).
- Pull and twist the extension plate all the way out (Figure 1b).
- Finish convert (Figure 1c).

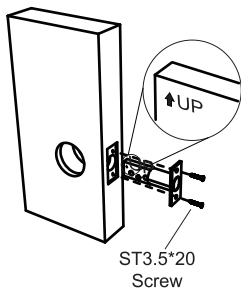

2. TO CONVERT FROM 2-3/4" (70mm) BACKSET TO 2-3/8" (60mm) BACKSET

- Rotate the cylinder cover anticlockwise (Figure 2a).
- Push and twist the extension plate all the way in (Figure 2b).
- Finish convert (Figure 2c).

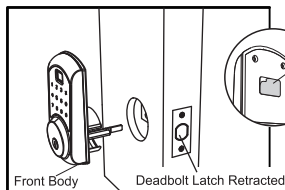

Installation Guide

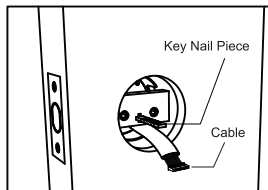

3. INSTALLING THE DEADBOLT LATCH SET

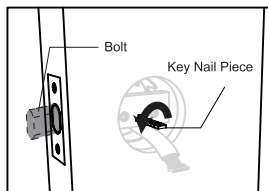

- Insert Deadbolt Latch Set into door edge hole with the word "UP" and the arrow on the extension plate facing UP. Cross shaped spindle connector will be at the bottom of the Deadbolt Latch Set.
- Make sure the face plate sits flush with the door. Do not force the latch into the mortise flush. Chisel out excess material if necessary for a flush fit.
- Using two "ST3.5*20". screw provided, screw the latch into the door with a hand held screwdriver. **DO NOT OVER TIGHTEN.**

- Remove the sticker, and Install the front body to the door, let the front body stick to the door.

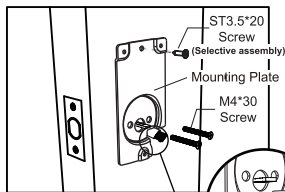

- Make sure the key nail piece through the deadbolt, the cable through the door hole.

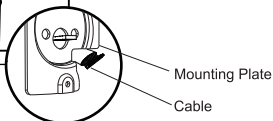

- Rotate the key nail piece to test if deadbolt works smoothly.

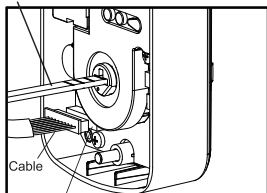

Installation Guide

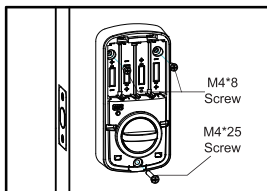

7. Make sure the cable through the door hold, the position near the mounting plate, then fix the fro body with 2 screws (M4*30), you can fix ST3.5*20 Screw selectively.

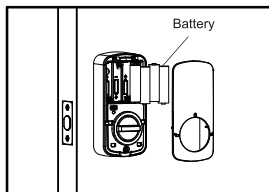

Key Nail Piece

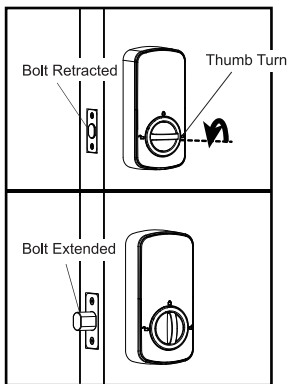

8. Insert the cable to the wire connector, ensure the cable is installed properly and securely. Insert the key nail piece to the hole which back of thumb turn.

9. Fix the back body to the mounting plate with 3 screws

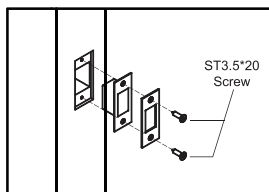

10. Turn the thumb turn to engaged the bolt, then place the batteries and install battery cover.

11. How to set the direction of lock

This lock requires deadbolt engaged to identify the open direction, please make sure the deadbolt is engaged after installation.

-  Note: If the deadbolt is retracted, there will be red light flashing and sound alarm, indicates that the lock's opening direction is not set, please turn the thumb turn to engage the deadbolt to set the opening direction.
