BED ASSEMBLY INSTRUCTIONS

SAFETY WARNINGS AND GENERAL NOTES

1. Follow all warning information on the loft bed frame and shipping carton. Do not remove any warning labels from the bed.
2. Always use the recommended mattress size on the mattress support to help prevent entrapment or falls.
3. Do not allow children under 6 years of age to use the upper bunk.
4. Periodically check the guardrails, stair unit, and all other components to make sure they are in the correct position, free from damage, and that all fasteners are tight.
5. Do not allow horseplay on or under the bed.
6. Do not allow jumping or rough play on the bed.
7. Do not exceed weight capacity. (see product specifications)
8. Mattress must fit securely within the frame.
9. Always secure the bed to the wall using the anti-tip kit.
10. Do not allow more than one person on the upper bunk at a time.
11. Always use the stair unit when entering or leaving the upper bunk.
12. Do not use substitute parts. Contact the manufacturer or dealer for replacement parts only.
13. Using a night light may provide additional safety for anyone using the upper bunk.
14. Always use guardrails on both long sides of the upper bunk.
15. If the loft bed is placed next to a wall, the full-length guardrail should be positioned against the wall to help prevent entrapment between the bed and the wall. The use of water mattresses or sleep flotation mattresses are prohibited.
16. **STRANGULATION HAZARD:** Never attach or hang items to any part of the loft bed that is not designed for use with the bed, including but not limited to hooks, belts, and jump ropes.
17. Keep these instructions for future reference.
18. We recommend assembling the loft bed on the shipping carton or on a protected surface to help protect your floor or carpet.
19. Make sure all staples are removed from the carton before beginning assembly.
20. Use only the mattress sizes specified below.

Upper Bunk Mattress

Bed Type: Twin Standard

Length: 75"

Width: 39"

Maximum Thickness: 6" max

21. The top surface of the mattress must be at least 5" (127 mm) below the upper edge of the guardrails.
22. Replacement parts, including additional guardrails, may be obtained from the manufacturer or dealer.
23. This product must be secured to a wall using the included anti-tip hardware. Failure to do so may result in serious injury or death.

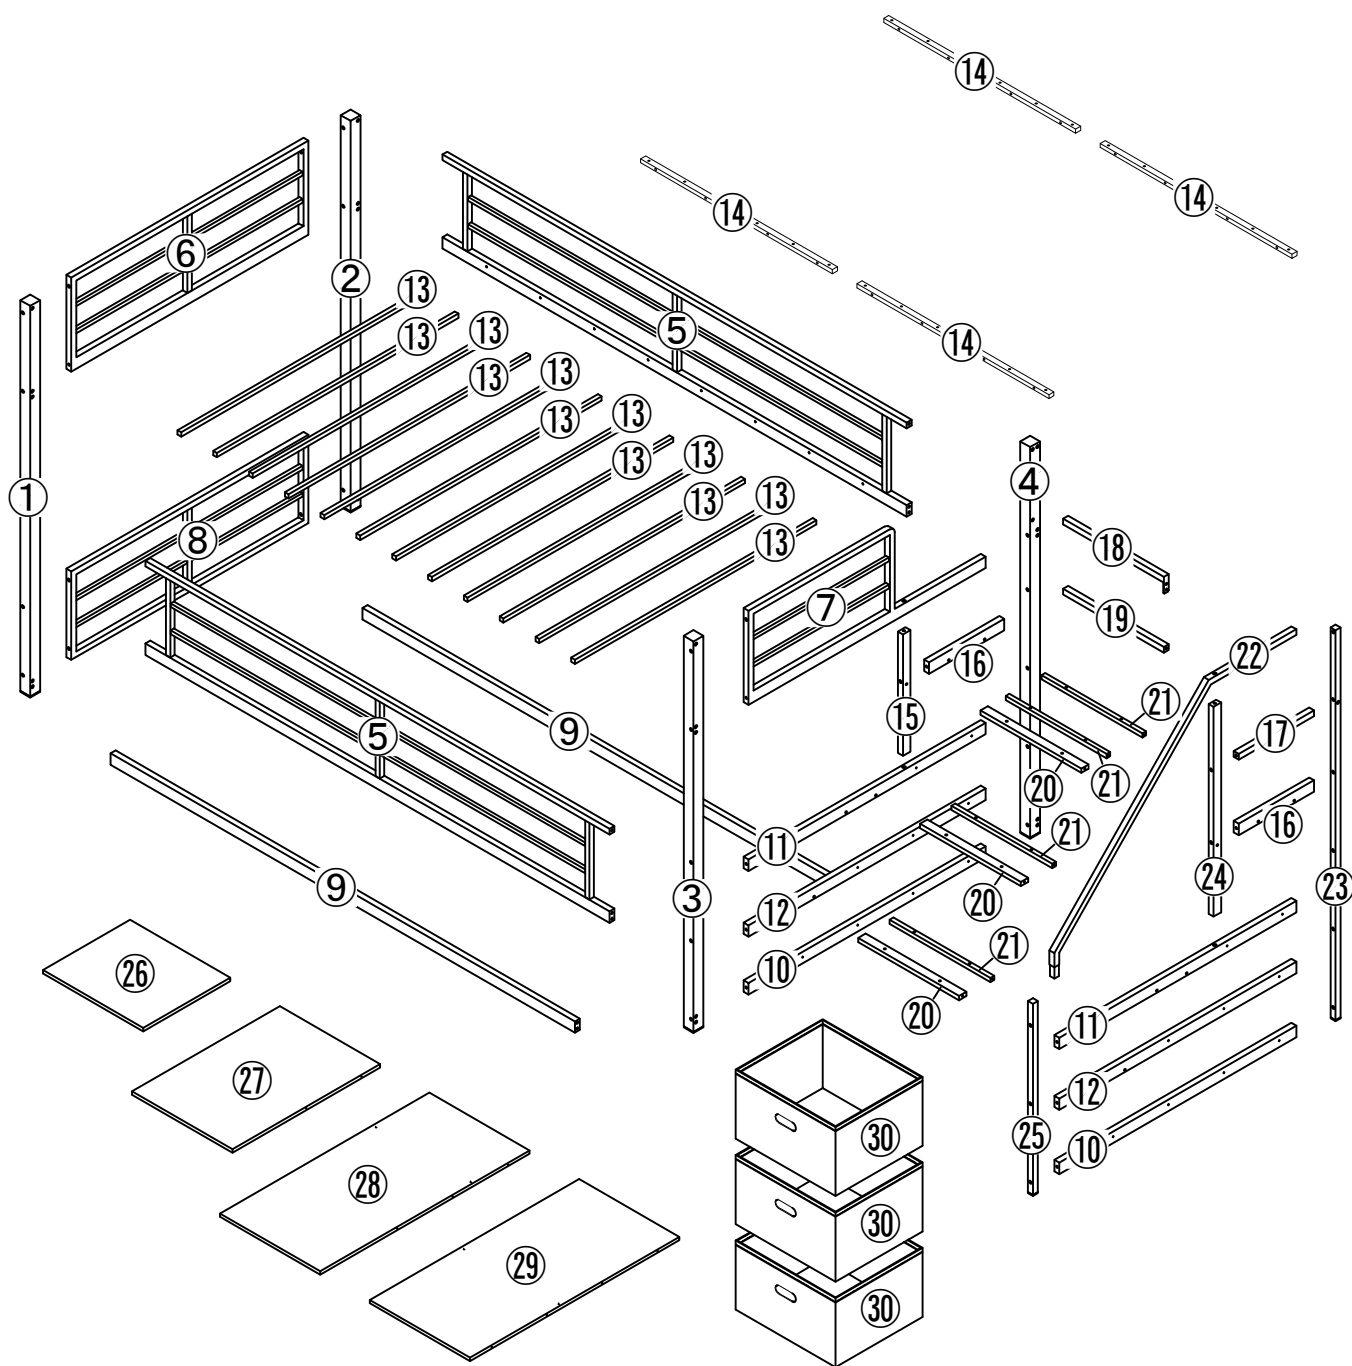

Before Assembly:

- Check all parts and hardware against the parts list
- Leave all bolts slightly loose until the frame is fully assembled and aligned. Tighten all bolts during the final check.
- Assembly requires 2 adults
- Estimated assembly time: 1–2 hours

ELECTRICAL SAFETY NOTICE:

- This product may include a power cord and electrical accessories.
- Keep all electrical components away from water, moisture, and heat sources.
- Do not allow children to play with or handle electrical components.
- Adult supervision is recommended when children are using the upper bunk.
- Make sure the power cord is securely fastened to the metal frame as instructed.
- Do not use any electrical component if the cord or plug is damaged.
- Disconnect the power before moving, adjusting, or servicing the bed.
- For indoor use only.
- Do not exceed the rated capacity of the power strip.
- Keep the power cord away from the stair path and any area where it may be stepped on.
- Keep all cords away from walking paths to prevent tripping.

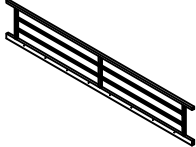

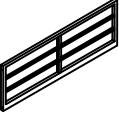

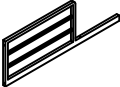

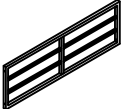

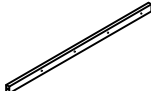

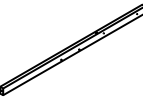

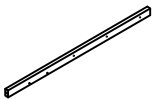

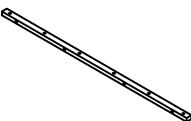

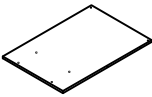

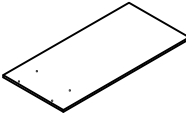

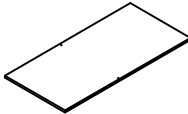

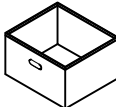

Bed Parts View

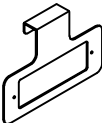

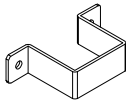

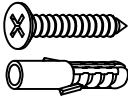

Recommended to be assembled by 2 people!!

A power drill with a hex bit may be used at low speed only. Do not over-tighten.
Hand tightening is recommended for final adjustment.

Step 1: Attach Parts #6 and #8 between Parts #1 and #2 as shown.

Hardware Required:

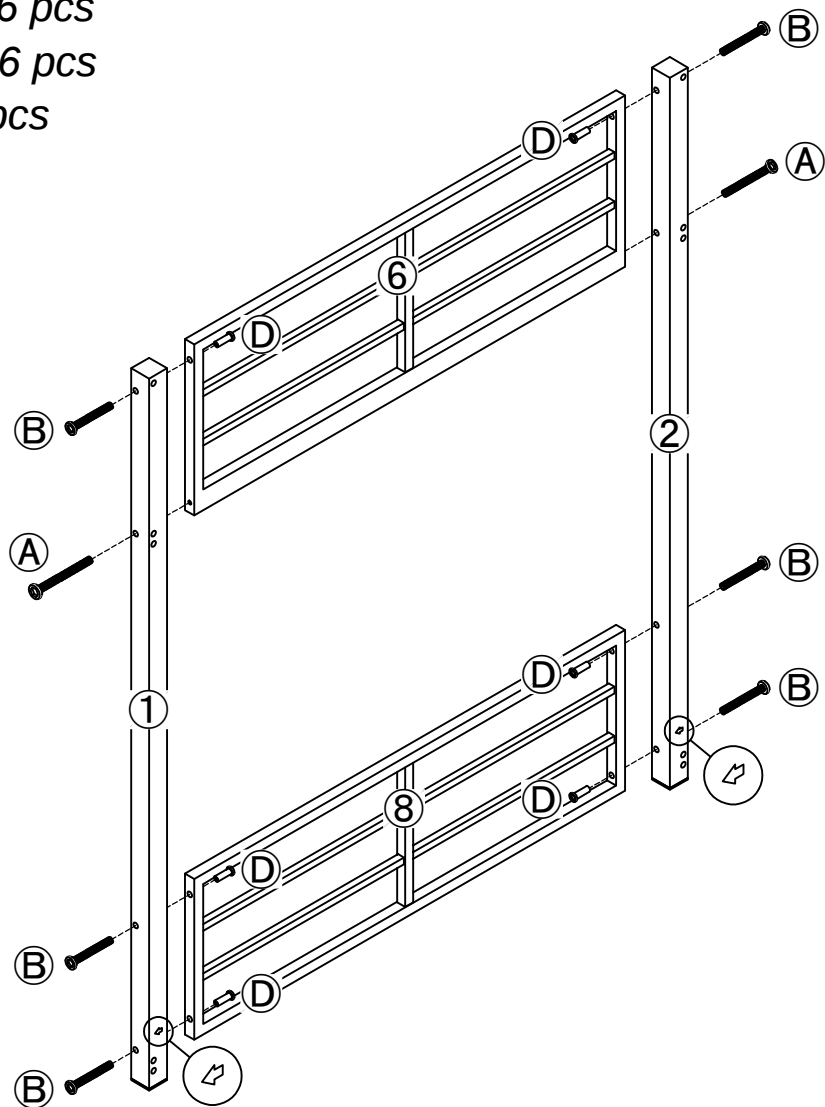

Bolt A M8×60 mm: 2 pcs

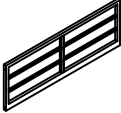

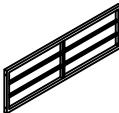

Bolt B M8×55 mm: 6 pcs

Bolt D M8×15 mm: 6 pcs

Allen Key E M5: 2 pcs

*Do not fully tighten
bolts at this stage.*

 M6*35mm Ⓖ - 14pcs	 M6*12mm Ⓘ - 2pcs	 M4mm Ⓙ - 1pc	 M5*60mm Ⓜ - 18pcs	 M3mm Ⓝ - 1pc

Step 7: Build two slat sections. Each section uses 6 slats. After assembly, flip both sections over and install them evenly across the bed frame.

				
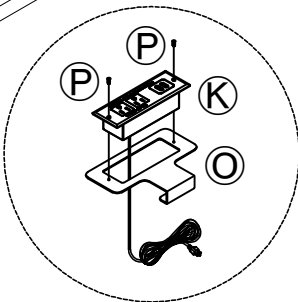

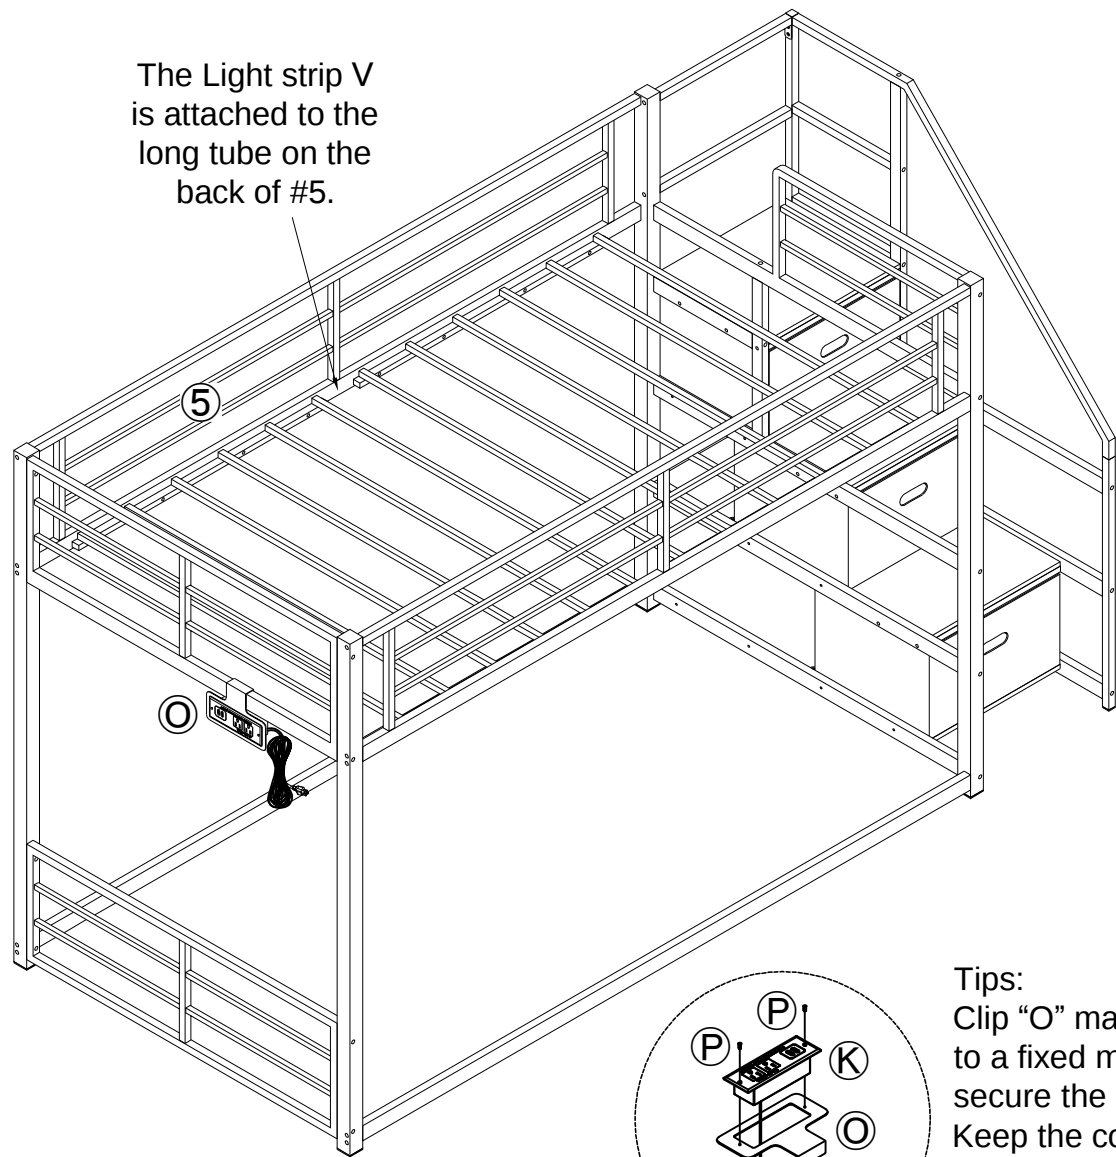

⑬ - 12pcs	⑭ - 4pcs	M6*35mm ⑮ - 16pcs	M6*25mm ⑯ - 24pcs	M4mm ⑰ - 1pc

Step 8: *Attach Part #30 to the frame as shown.
Ensure it is fully secured.*

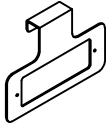

③⑩ - 3pcs

Step 9: Install the LED light strip on the back tube of Part #5 as shown. Make sure the connector is fully aligned before plugging in the power. Route the cord along the frame and keep it away from the stair path, moving parts, and any area where it may be stepped on or pinched. Do not power on the light strip until installation is complete.

Tips:
Clip “O” may be attached to a fixed metal tube to secure the power cord. Keep the cord away from the stair path, moving parts, and mattress support area.

Step 10: Secure the bed to the wall using the included anti-tip hardware before use. For best results, attach the anti-tip brackets to wall studs when possible. If mounting to drywall, masonry, or another wall type, use appropriate anchors for that wall material.

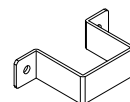

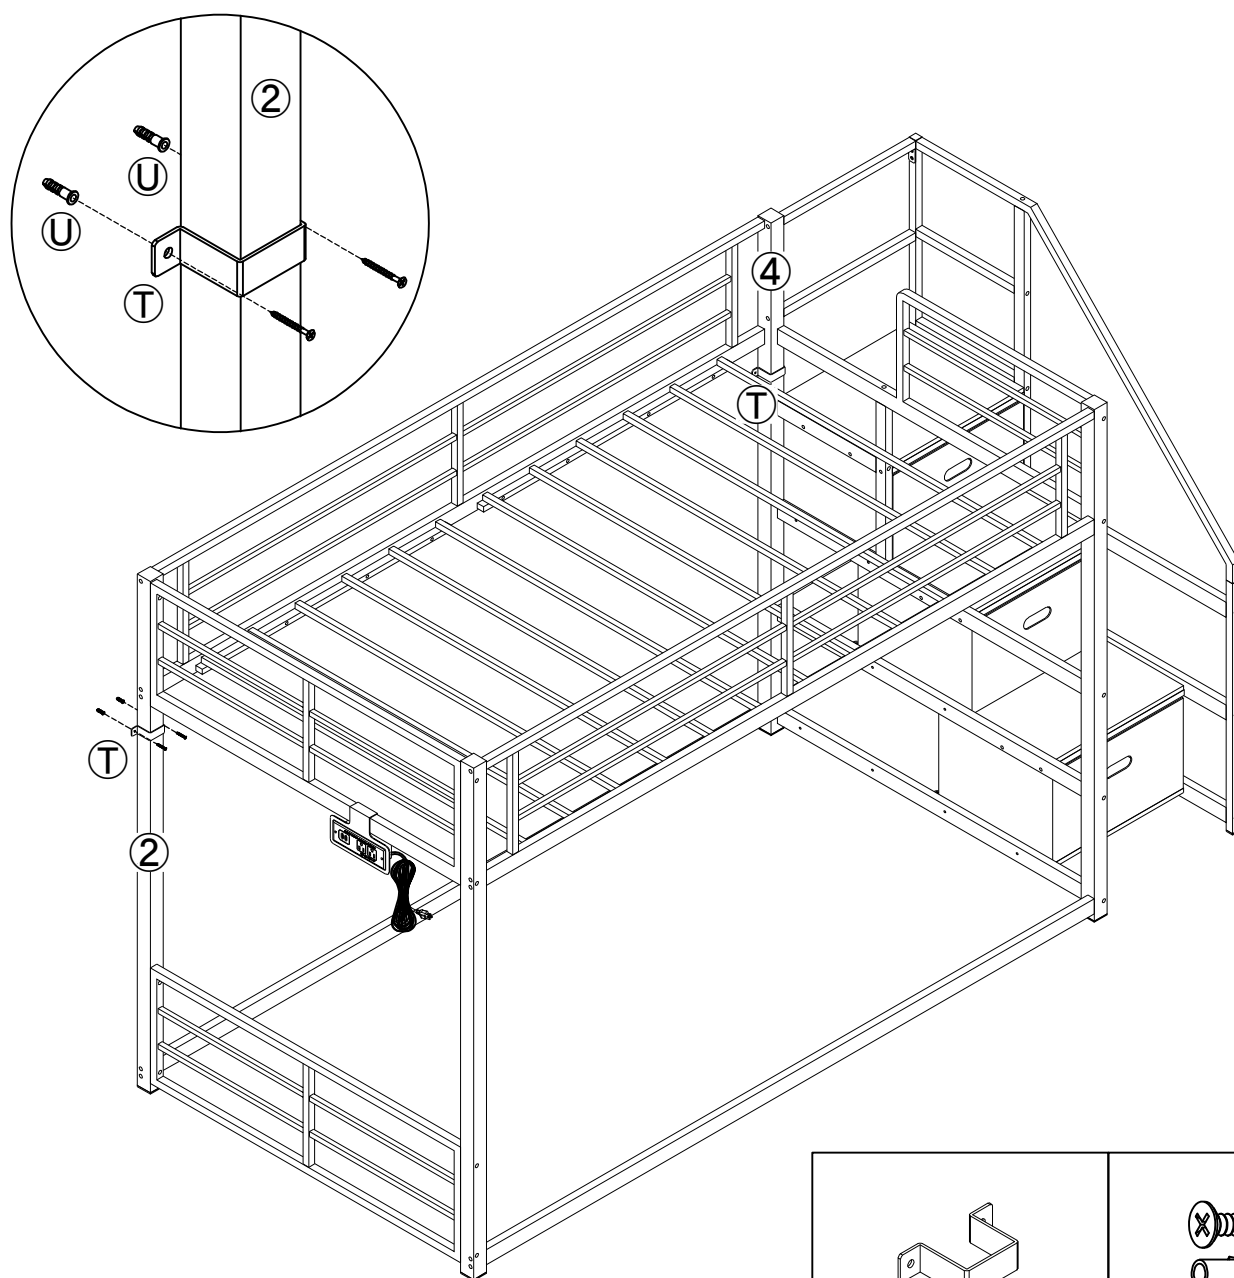

Final Check:

Tighten all bolts after the frame is fully assembled.

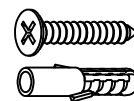

Confirm the stair unit is firmly attached.

Confirm the anti-tip brackets are secured to the wall.

Place the correct mattress on the frame before use.
