1. Align the metal plates on both sides of the armrest with the slots. Insert them diagonally downward. Once in place press down firmly to secure the armrests and prevent wobbling.

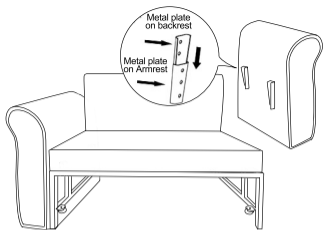

2. The sofa cushions should be level with the armrests protruding 2-3 cm from the sofa stand.

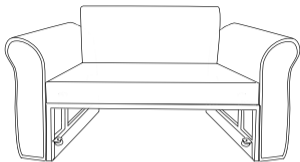

3. The armrest tilts 90 degrees

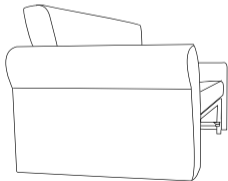

4. There are four screws in total. Tighten the screws to the right to ensure they penetrate the wood.

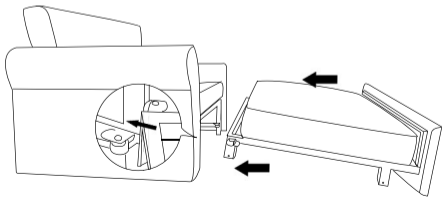

5. Align the metal plates on both sides of the armrest with the slots. Insert them diagonally downward. Once in place press down firmly to secure the armrests and prevent wobbling.
