PREPARATION

- 1.Before beginning assembly of product,make sure all parts are present.Compare parts with package contents list and hardware contents .If any parts is missing or damaged,do not attempt to assemble the product .
- 2.Estimated Assembly Time :Approximately 15-20 minutes.
- 3.Helpful Tools(not included):Rubber Mallet.
- 4.Tools Required for Assembly (included): Wrench

Assembly Steps:

1 Screw the Nylon Casters(I) into the bottom of four Lower Poles(B) by wrench, and then snap the Plastic Clips(H) into the grooves of four lower pole at your desired position. Make sure the arrow of plastic clips are pointed up.

2 Please make sure that you have the Wire Shelf(A) the correct way up, hold the wire shelf on its side and slide the top of four lower poles through the bottom of the wire shelf at its corners until there is a snug fit, and then set the wire shelf upright.

3 Repeat the step 1) to snap the plastic clips into the grooves of four lower pole at your desired position for the second wire shelf. Slide down the wire shelf from the top of each lower pole onto the plastic clips.

4 Insert the Bended Tubes(C) and Upper Tubes(D) into four lower poles by Height Adjustable Connection(F) to make them firm. Make sure the height adjustable connections are in unlock status before inserting lower poles.

5 Connect the Hanger Rod(E) and hanger upper tubes by Corner Connectors(G).

6 Pushing firmly down on every wire shelf at corners by rubber mallet to ensure the shelf is in place over the plastic clips.
