

USER'S MANUAL

USER'S MANUAL: Dog Stairs & Steps

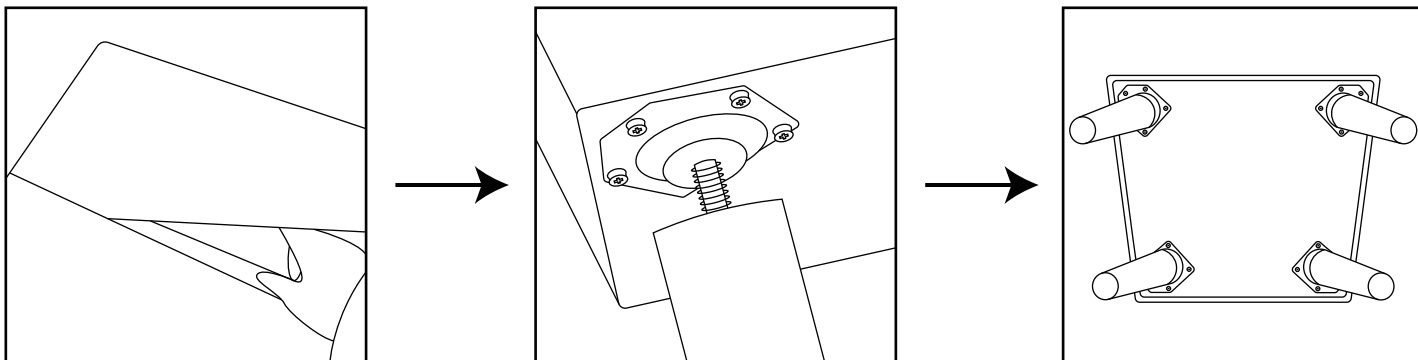

Instructions for Use:

Step 1

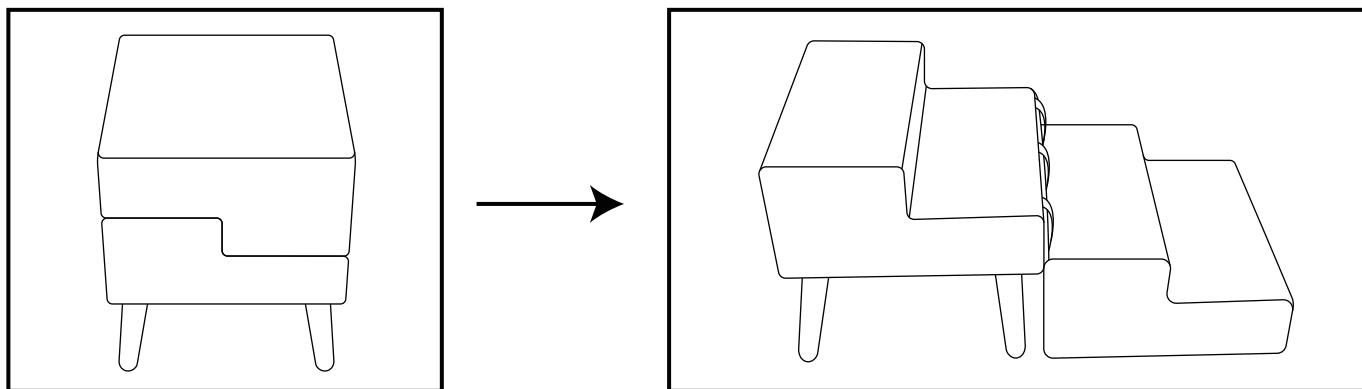

Take out four wooden sticks from the bottom gap and install them in the corresponding holes

Attention: The wooden stick needs to be fully screwed into the hole

Step 2

This product has a 2-in-1 function and can be used as a home stool in its complete form. When folded open from the gap, it can be used as a pet staircase.

PRODUCT MAINTENANCE AND CARE:

- ① Wipe off grease with a clean, dry cloth.
- ② Soak a cotton ball or swab in rubbing alcohol, or spray a cleaner onto a cleaning cloth, and gently wipe away dirt. (1. Try to follow the direction of the leather's grain while wiping to maintain the integrity of the leather. 2. Avoid excessive rubbing. Over-scrubbing can damage the leather and cause stains to penetrate deeper, making them harder to remove.)
- ③ Use a clean, dry cloth to absorb any remaining moisture from the leather.
