Product Description: Old world meets curated chic with the iconic Red Bombe Chest, a conversation piece in any room. Timeless hardware and bombe design combines with a contemporary color palette and a casual rustic hand-painted finish with distressing including rub-through. Ample storage with five roomy drawers.

Collection Features: Crafted from hardwoods solids and veneers, the Red Bombe Chest is a beautiful accent in any room and provides ample storage with its five drawers.

Status: Active

Finish: Distressing includes chopping, rub through and worm holes.

Features: Five drawers

Material: Hardwood with Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and

cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
