

INSTALLATION INSTRUCTION

Find the "BACK" labels on the sofa cover and place it on the left and right corners of the sofa back.

Pull the cover down so that it reaches the bottom of the sofa evenly on all sides to cover the entire sofa.

Use foam sticks to tuck excess fabric into the sofa seat gaps to make it look smoother.

Organize the slipcover to make your sofa look neat and fitted. For more installation help with slipcovers, please contact us for video guidance.
