**Product Specification**

The finished deck-mount spout shall be of brass construction and shall be installed only on finished deck material. Spout shall be a 3" (76 mm) high non-diverter spout with a 9" (229 mm) spout reach and two-handle ceramic side valves. Handles (purchased separately) shall be available in a variety of style options. Spout shall be Kohler Model K-72777-\_\_\_\_\_.

# ARTIFACTS™

## Installation Notes

**IMPORTANT!** Artifacts deck-mount handles are only compatible with the valve included with the Artifacts deck-mount faucets. Do not install to a K-300 bath valve.

**IMPORTANT!** For K-T98071-9M models, the handle swings up and toward the user. Ensure that the handle will not interfere with the bath fixture during operation.

Install this product according to the installation guide.

**For a finished bath deck less than 5/8" (16 mm) thick,** install wood reinforcing material to the underside of the deck. The combined thickness of the reinforcing material and the deck must not exceed 3" (76 mm).
