

Orion LED Floor Lamp

ASSEMBLY INSTRUCTIONS

	1. Screw the tube B.1 together with the tube A.
	2. Insert the tube C into tube A.
	3. Insert cap D into the tube B and C.
	4. Insert the tube B.2 into the base E.
	5. Tighten the washer and nut F with tool G (Tool included).
	6. Adjust the 3 arms to your decided position. Then secure with screw by tool H (Tool included).
	7. Connect the plug/LED Driver I to a wall outlet for power.

WARNING:

1. Before using the product, read this manual carefully and read any additional assembly instructions if they are provided, and keep this manual for a later use or maintenance.
2. The installation instructions need to be followed completely. In a case where there is uncertainty, a licensed electrician should be contacted.
3. Always disconnect the power source before mounting or performing maintenance on this lamp. Tampering with this product can void warranty.
4. Please ensure that no cables or wires get damaged during installation. Always make sure that the correct light source and the correct power output are being used as indicated on the lamp.
5. The LED bulb included in this lamp CANNOT be replaced. If needed, please contact Brightech Customer Support for further assistance.
6. Please note it is normal to have little discoloration among different parts of the Oil Brushed Brown (OBB) finish as it is applied by hand.
7. Brass, Bronze and steel colored parts should only be cleaned with a soft cloth and without using any detergents.
8. The manufacturer is not responsible for damage or injuries as a result of incorrect mounting, connection or application of the product.
9. This product should not be used as a toy for children.

If you have any questions or concerns please do not hesitate to contact us.
