

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: Turn off the main power at circuit breaker before installing fixture.
AVERTISSEMENT: Coupez la source d'alimentation principale au panneau central de disjoncteurs avant d'installer le luminaire.

NOTE: 1. Before installing, consult local electrical codes for wiring and grounding requirements.
2. Read and save these instructions.

Warning: LED electronics can be damaged by electro static discharge (ESD) shock. Before installation, discharge yourself by touching a grounded bare metal surface to remove this hazard. To avoid damage, do not touch the LED module.

Hardware Package (included):

Crossbar Unit (A)

Mounting Screw (B)

Wire Connector (C)

Bolt Nut (D)

Rubber Pad (E)

Installation Steps

Turn off the power at fuse or circuit box

1. Unscrew the two bolt nuts (D), remove the two rubber pads (E) from the crossbar unit (A).
2. Attach the crossbar unit (A) to the outlet box by using two mounting screws (B). Adjust the length of the preinstalled headless screws if necessary.
Note: Make sure that the headless screws are lined up horizontally to make the fixture level.

3. Pull out the source wires from the outlet box. Make wire connections using wire connectors (C) as follows:
 - Connect the hot wire (black insulation) from the fixture to the black wire from the power source.
 - Connect the neutral wire (white insulation) from the fixture to the white wire from the power source.
 - Attach the fixture ground wire (bare wire) to the crossbar unit (A) with the green ground screw. Then, depending on local code, then connect it to the house ground wire with the wire connector (C).
 Carefully put all of the wires back into the outlet box.
4. Attach the backplate of the fixture to the crossbar unit (A) by inserting headless screws into open holes on the backplate, then secure it with two rubber pads (E) and two bolt nuts (D).

Note: With silicone caulk compound, caulk completely around where the backplate meets with the wall surface to prevent water from seeping into the outlet box.
5. Unscrew the bolt nut-1 to loosen the glass holder, and secure the glass holder with the bolt nut-1 after holding the glass shade with the glass holder.

Turn on the power at fuse or circuit box.

The following parts are available for reorder if damaged or missing.

Spare Parts List:

 Crossbar Unit (A)	 Mounting Screw (B)	 Wire Connector (C)	 Glass 9945CS
 Bolt Nut (D)	 Rubber Pad (E)

5 Year Limited Warranty

We warrant all of our products against defects in workmanship and finishes for one year following the date of shipment.

In addition:

- Any product with an integrated motion sensor or dusk-to-dawn photocell is supported by a 5-year warranty for the functionality of the product.
- Any product with integrated LED modules is covered by a 5-year warranty on the LED functionality.

Exclusions: This warranty does not include the failure of products from extreme acts of nature; environmental conditions not suited for the products intended use; operation in temperatures outside of the range specified in the instruction manual; usage with improper power supply, power surges or dips. For coastal locations, some corrosion is considered normal for the environment.

We reserve the right to repair, replace or issue a credit for any properly installed product, provided it is returned per RMA instruction. This warranty is limited to the cost of the product only and does not extend to transportation, installation or replacement costs.
