

POWER SUPPLY PLACEMENT, CONTENTS & INSTRUCTIONS

Power pack placement under the sofa and/or loveseat. This box contains the power pack along with instructions on how to assemble. There is a diagram included in the box.

Motor Box contents. Power pack, cord and diagram instructions.

ASSEMBLE ALL CONNECTIONS PER THE ABOVE DIAGRAM

WARNING: DO NOT PLACE EXCESS CORD UNDER THE FURNITURE OR IN THE PATH OF MOTION OF THE FURNITURE. THIS COULD CAUSE CUT OR SCRAPED CORDS.

CAUTION: ENSURE THE POWER SUPPLY IS LOCATED WHERE THE CHAIR WILL NOT HIT IT WHILE RECLINING.

1. Plug in the y-cable adapter cord to each motor as shown in the photo above highlighted in yellow and labeled #1.
2. Plug the y-cable cord into the power pack cord highlighted above in pink #2. It is a male/female connection that locks in once they are connected.
3. Plug the power supply cord into the electrical outlet highlighted above in green #3. You should see a green light on the power supply box signaling that you have power to the cord.
